Excellence at the MacDonald Building

"I often see the **Grounds Crew** working around the Quad, and they are always so friendly. I also really enjoyed the Dal engagement session they hosted. It was a great opportunity for them to showcase their vast knowledge.

I work primarily in the MacDonald Building, and the **custodial staff** are always lovely and welcoming. I've also noticed the team working on the restoration at the front of the building, including **the painters**, and they are consistently friendly and pleasant.

I thought it was worth sharing how much these positive interactions are appreciated.
