Rock Star

”Melissa Elliott the cleaner in McCain who mostly works on the upper floors, has been a rock star for us throughout the building envelope renewal and the Poli Sci move. She is meticulous in keeping things tidy even when construction was at its worst and her dedication to ensuring smooth transitions into new—and newly cleaned—offices has made what could have been a nightmare an all round more pleasant experience. She has an amazing attitude and is highly respected by faculty, staff and students because she takes such pride in making sure that our spaces look their best.”

Jennifer Andrews, Dean, Faculty of Arts and Social Sciences
