

Nathan Plays a Supportive Role in Discussing Rainbow Crosswalk

Norma M. Williams, the Executive Director Diversity & Inclusiveness, wanted to know if crosswalks near Dalhousie could be painted for next year's Pride Week. She asked Nathan Rogers, Asst. Director of Planning, to help. She strongly appreciates the supportive role Nathan and all Facilities Management staff have played in agreeing to and moving this project forward. And, Norma says, "As we discussed during our meeting, even though painting a crosswalk seems like an 'easy' ask, the reality is, that it is anything but." Also, the research and actions undertaken within Facilities Management speak not only to the knowledge and skills present, but also to your commitment to equity, diversity and inclusiveness. Therefore, thanks again to Nathan and all facilities management.
