

Dalhousie University is a Scent-Free and Smoke-Free Environment!

**For more information visit:
www.dal.ca/scentfree and
www.dal.ca/smokefree**

Please do not smoke and avoid wearing scented personal care products when you come to class, to work and to visit Dalhousie University. Why? We all breathe the same air.

Dalhousie is a national leader among universities for its scent-free and smoke-free policies. It's committed to providing a safe and healthy environment.

Smoking is prohibited at Dalhousie and smokers are asked not to light up on campus. Fragrances can trigger asthma attacks, allergies and other medical conditions, so the University asks people to avoid wearing scented personal care products to work, in the classroom and in all shared public spaces, including at Dalplex, the libraries and the Dalhousie Arts Centre.

Thank you for your cooperation.

We all share the air.

Sincerely,
**The Office of
Environmental Health
and Safety**
