

IDLE-FREE

TURN ENGINE OFF

SAVE FUEL. SAVE LUNGS.

Drivewiser
Drive. Maintain. Reduce your fuel efficiency.

 **DALHOUSIE
UNIVERSITY**
Inspiring Minds

Dalhousie has recently passed a new idling guideline:

Please shut down your engine if you will be stopped for more than one minute!
(three minutes for large commercial vehicles)

For more information visit:

www.sustainability.dal.ca

Why prevent idling?? Did you know . . .

- Children are susceptible to air pollution as they breathe 50% more air than adults.
- Idling at Dalhousie emits \approx 588 tonnes of Carbon Dioxide annually.
- Save fuel. Save money. Idling costs the average driver over \$17/year.

Consider signing up for Dalhousie's RideShare program or think about biking or walking wherever possible. Visit the new Campus Bike Centre for maintenance and riding tips.
