

These instructions and the schedules attached apply only to students who will have completed all first year courses by the start of the Fall 2024 term and will be pursuing a full course load. Other students should consult with an Academic Advisor (engineering@dal.ca).

Students who plan to pursue a reduced courseload should register for the classes they plan to take and then consult with an advisor.

In the Fall 2024 term, you register independent of placement. On the following pages are listed 4 registration groups that you can use to register for a conflict free schedules. Each Registration Group offers multiple lab combinations.

Other combinations are possible so please feel free to design your own conflict-free schedule

The last page of this document shows the comprehensive schedule you can use to plan your own schedule.

Registration opens on **March 19, 2024**

You will need to register for courses on DalOnline using the class add/drop function.

See: [Register for courses - Academic Support - Dalhousie University](#)

Make sure you select the correct term.

Make sure you register for all courses you are intending to register for.

Students taking a standard courseload and progression will register for 6 courses (18 credit hours) in the Fall term:

Course	Required Components:		
ECED 2000 Electric Circuits	Lecture	Lab	Tutorial
ENGI 2102 Thermofluid Engineering 1	Lecture	Lab	Tutorial
ENGM 2032 Applied Probability & Statistics	Lecture		Tutorial
ENGM 2101 Applied Vector Calculus	Lecture		Tutorial
IENG 2005 Engineering Economics	Lecture		Tutorial
Writing I Course	Varies, see timetable		

The "live" version of the academic timetable can be referred to here: https://www.dal.ca/academics/academic_timetable.html

This document was created on March 14, 2024. Please check <https://go.engineering.dal.ca/diploma> for updated versions. All schedules are subject to change.

Registration Guides for Winter 2025 will be provided after Round 1 of the Fall 2025 placement process has concluded on June 1, 2024.

Course selection for Winter term is **contingent on placement**. Please refer to the "For Students Entering their Year 3 Program in Fall 2023 or Fall 2024" document found under Diploma Requirements at <https://go.engineering.dal.ca/diploma> to see the required courses for each discipline.

While registration instructions will not be issued until placement occurs, **students can register for Winter term courses**

using the Core Program worksheet and the notes on <https://go.engineering.dal.ca/diploma>. However if you do this you will need to be prepared to alter your registration to match your assigned placement.

If you believe you have found an error in this guide please submit your feedback to jason.lecoure@dal.ca

All the best.

Jason.
