

Year 2 Engineering Fall 2025 Registration Guide

These instructions and the schedules attached apply only to students who will have completed all first-year courses by the start of the Fall 2025 term and will be pursuing a full course load. Other students should consult with an Academic Advisor (engineering@dal.ca).

Students who plan to pursue a reduced courseload should register for the classes they plan to take and then consult with an advisor.

In the Fall 2025 term, you register independent of placement. On the following pages are listed registration groups that you can use to register using course CRN numbers. Many other combinations are possible. Use the Calendar page in this guide for a visual representation of all of the course options.

Registration opens on March 18, 2025

You will need to register for courses on DalOnline using the class add/drop function.

See: Register for courses - https://www.dal.ca/campus_life/academic-support/register-for-courses/register.html

Make sure you select the correct term.

Make sure you register for all courses you are intending to register for.

Students taking a standard courseload and progression will register for **6 courses (18 credit hours)** in the Fall term:

Courses & Required Components:

ECED 2000 Electric Circuits – Lecture, Lab, Tutorial

ENGI 2102 Thermofluid Engineering 1 – Lecture, Lab, Tutorial

ENGM 2032 Applied Probability & Statistics – Lecture, Tutorial

ENGM 2101 Applied Vector Calculus - Lecture, Tutorial

IENG 2005 Engineering Economics - Lecture, Tutorial

Writing Course - Varies, see timetable

The "live" version of the academic timetable can be referred to here:

https://www.dal.ca/academics/academic_timetable.html

This document was created on March 14, 2025. Please check <https://go.engineering.dal.ca/diploma> for updated versions. All schedules are subject to change.

Registration Guides for Winter 2026 will be provided **after** Round 1 of the Fall 2025 placement process has concluded on June 1, 2025.

Course selection for Winter term is contingent on placement. Please refer to the file titled "**For Students Entering their Year 3 Program in Fall 2026**" at <https://go.engineering.dal.ca/diploma> to view the courses required to satisfy Year 3 admission requirements. This file also contains the full list of acceptable writing courses.

While registration instructions will not be issued until placement occurs, students can register for Winter term courses using the Core Program worksheet and the notes on <https://go.engineering.dal.ca/diploma>. However if you do this you will need to be prepared to alter your registration to match your assigned placement.

If you believe you have found an error in this guide please submit your feedback to jason.lecoure@dal.ca
All the best.

Jason.
