

Winter 2021 Year 2 Registration Instructions

For students who have completed all Year 1 requirements, register for your courses based on your Fall 2021 Placement by following the lists below
(eg. If you were issued an Electrical Engineering placement, register for the Electrical Engineering list below.)

Students who have not completed all Year 1 requirements should review the prerequisite requirements for Year 2 courses. You may not register for courses you lack the prerequisites for. In most cases you will want to prioritize Year 1 deficiencies and build a schedule around those courses. Consult with your advisor: engineering@dal.ca for assistance.

CHEMICAL ENGINEERING

20999	ENGM2022	L01
21000	ENGM2022	T01
