Appendix

This appendix provides a summary of Dalhousie's International Travel Policy (dated February 13, 2019) which is available at https://www.dal.ca/dept/university_secretariat/policies/international/international-travel-policy-.html. The points touched on here pertain mainly to the pre-departure responsibilities for graduate students; however, every traveller should read the complete policy and be familiar with it.

- Travelers are required to register travel for University activities outside of Canada with Dalhousie's international travel registration system prior to departure (see https://www.dal.ca/campus_life/ile/travel_abroad/international-travel.html).
- Undertake the Pre-Departure planning prior to departing to an international destination. The supervisor is responsible to ensure the student is aware and is complying with this process.
- Travelers are responsible to ensure they are fit for travel (physically and mentally). Specifically, responsible with familiarizing themselves with possible health risks associated with the travel destination and taking preventive measure including recommended vaccinations and medications.
- Continuously monitor travel advisories before to the trip and during it.
- Canadian travellers are required to register their presence within the destination country using the Canadian government's online Registration of Canadian Abroad (ROCA) system (<https://travel.gc.ca/travelling/registration>). Travellers who are citizen of other countries are required to register their travel with in the foreign office of their country of citizenship whenever possible.
- Prior to travel, travelers are responsible to:
 - Have required documents (passports, visas, permits, etc.);
 - Have trip cancellation or interruption insurance: strongly recommended when travelling to destination with travel advisories;
 - Have appropriate travel health insurance (the policies provided by the Dalhousie Student Union provides appropriate coverage);
 - Have other appropriate travel insurance if required.
- In the event of an emergency during international travel, travellers are expected to:
 - Act to protect their own safety;
 - Contact Dalhousie's professional medical and safety travel service;
 - Follow instruction given by the University and Dalhousie's professional medical and security travel service.
