THE ROAD TO YOUR RPP
How to become a Registered Professional Planner

STEP 1: CANDIDATE MEMBERSHIP

The first step to becoming a Candidate Member of your Provincial or Territorial Institute or Association (PTIA) is applying to the Professional Standards Board (PSB). The Professional Standards Board is a national body that reviews applications for membership, and administers the certification standard. Once the Professional Standards Board confirms to your PTIA that you are eligible to become a Candidate Member, your PTIA will contact you and invite you to apply to become a Candidate member of their institute.

We consider planning to be "the scientific, aesthetic and orderly disposition of land, resources, facilities and services with a view to securing the physical, economic and social efficiency, health and well-being of urban and rural communities". **Who can be your Mentor?**

- A Registered/Certified member in good standing of a PTIA (RPP, LPP, MCIP) for 3 or more years
- Ideally a supervisor, close work colleague or other close professional colleague of the Candidate member

**WHEN WILL I HEAR BACK?**

It takes anywhere between 2-3 weeks for the PSB to review your application, once we receive all of the necessary documents. If your application is in order, the PSB will provide a recommendation to your PTIA, who will then invite you to become a Candidate Member. Once you become a Candidate Member, you can move on to step 2,3 and 4.

**STEP 2: MENTORSHIP**

Your mentorship is designed to help you with your professional growth and your development of specific competencies. Your mentorship period will last a minimum of one year, and can only begin once you have been accepted as a Candidate Member by your PTIA. This is to ensure that you are exposed to, and cover, a range of professional topics while completing your practical work experience.

**WHAT DOES MY MENTOR DO?**

- Meets with Candidate member frequently (e.g., every 2 months) over the minimum one-year Mentorship period, either in person or electronically
- Ensures Candidate member is familiar with, integrates, and can apply:
  - The PTIA’s Code of Ethics or equivalent.
  - The CIP Code of Professional Conduct.
  - The role of the ‘public interest’ in professional planning.
  - The role of the profession in maintaining standards of competency, ethics and professionalism
  - A broad range of the profession’s competencies

**WHAT CAN I LOG?**

You must document at least 4-6 meetings with your mentor in the template provided on the PSB website for a minimum of 1 year. Meetings/activities should not be related to the Candidate’s normal work activities (a meeting to discuss progress on a specific project is not acceptable)
STEP 3: LOGGING WORK EXPERIENCE

The Sponsor, which you indicated on your application form, will monitor you during this stage of the process. Your Sponsor will review and validate (sign off on) your Record of Practical Work Experience (work logs). Your Sponsor’s signature on the Record does not merely indicate that s/he believes the work was carried out by you as described, but also indicates that the Sponsor is fully satisfied that the reported work constitutes acceptable responsible professional planning experience.

WHAT CAN I LOG?

You can log responsible planning experience and must outline it in the PSB template. It does not include technical, clerical or administrative work performed in support of the planning function.

Responsible planning comprises analysis, projection, design or program development which specifically requires consideration of the inter-relationships of space and time among resources, facilities and activities, and which expresses this consideration in a manner to influence the deposition of land or the allocation of resources, facilities or services. It also shows a specific relationship to public policies or programs for controlling or influencing the development of communities. Responsible planning relates to the professional competencies and comprises a substantive component of initiative, judgment, substantial involvement and personal accountability or definition or preparation of significant elements of the program of work.

CAN I LOG PAST EXPERIENCE?

Accredited Degree applicants may be allowed to use one (1) year’s experience gained prior to application, provided their Sponsors agree, the experience was gained post accredited degree, and the applicant was paid for the work. Unpaid internships and volunteer experience does not count. This accommodation is not available to PLAR or Advanced Standing applicants.

HOW MANY YEARS DO I NEED TO LOG?

Accredited Degree applicants must log the equivalent of two years of responsible planning experience (one of which can be backlogged). PLAR or Advanced Standing applicants are required to log one year of responsible planning experience.

STEP 4: ETHICS & PROFESSIONALISM COURSE

All candidates are required to complete the Ethics & Professionalism Course and Test. The course consists of eight modules: (1) Professions and the Professional Culture (2) Why the Planning Profession is Concerned About Practitioner Ethics (3) Professional Obligations and Responsibilities (4) The Ethical Planning Practitioner (5) The Public Interest (6) Professional Codes of Ethics and Practice (7) Case Studies and Exercises (9) Readings. The candidate has six months to complete the readings and pass the final test.

HOW DO I TAKE THE TEST?

Once you have completed all of the necessary readings, you may request to take the Ethics & Professionalism test. The test is a series of multiple choice, fill-in-the-blank and true/false questions. You must request the test from the PSB, who will then send you the PDF test. You are required to print the test, complete it, scan it and send it back to the PSB within 24 hours.

STEP 5: THE PROFESSIONAL EXAMINATION

The Professional Examination is the final step in achieving your RPP designation. The Professional Examination is a formal, multiple choice Examination that is offered twice in each year – once in the Spring and once in the Fall. It will be marked, and a “pass” is 80%.
WHEN AM I ELIGIBLE TO WRITE?

You are eligible to write the Professional Examination once the following steps have been completed:
