### **Electronic Resources**

Once you have a NetID, you can access the libraries' electronic resources from home. To do so you will want to go to the Dalhousie Libraries webpage: <http://libraries.dal.ca/> and then search for books or journals using the search box in the middle of the page. If you are using library resources from off campus you will be asked for a user name and password. This is your NetID and password. See the tutorials above for more information or contact the library.
