A Nova Scotia Survey of Health and Health Care Costs For Hepatitis C

What is this survey about?
Thank you very much for agreeing to take part in this important study which is a survey of people who have Hepatitis C and how they consider cost issues when it comes to taking medication for this.

How to complete the questionnaire.
The questions inside cover a wide range of related topics, but most can be answered by placing a tick ✓ in one or more of the boxes ☐. Sometimes you will be asked a question and your answer will be written in a box by the interviewer. No special knowledge is required and there are no right or wrong answers; we are simply interested in your own particular views.

The questionnaire should not take very long to fill in, about 30 minutes, and we hope you will find it interesting and enjoyable to complete. All your answers will be treated in the strictest of confidence, and will remain completely anonymous.

Questions or help.
If you have any queries about the survey please contact the researcher.

C. PRESCRIPTION CHARGES AND COST OF MEDICINES

The next few questions are about the cost of medicines. This includes the prescription charge but also money you may spend when buying something over the counter at a pharmacy.

C1. Do you ever feel you have to think about how much money you have available to spend when you obtain medicines (either obtained on prescription or bought from a pharmacist (drug store/hospital)?)

- 1. Always
- 2. Often
- 3. Sometimes
- 4. Never
- 5. Not applicable

C2. The next few statements are things that people commonly say about the cost of medicines and what they do to keep this cost down. Please say how often you would behave in such a way.

<table>
<thead>
<tr>
<th>If I can’t afford my prescription I don’t get my medicine dispensed at all</th>
<th>Always</th>
<th>Often</th>
<th>Sometimes</th>
<th>Never</th>
<th>Not Applicable</th>
</tr>
</thead>
<tbody>
<tr>
<td>Knowing that I will not be able to afford the prescription stops me from going to see my doctor or nurse practitioner</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>If I’m worried about money I take less of my medicine to make it last longer</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>I have to wait to get my prescription filled until I get paid (or social assistance cheque)</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>If I have a number of different items on my prescription, I don’t get them all filled, because I can’t afford them all at once</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>I have in the past borrowed money to pay for my prescription medicines</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

C3. People sometimes ask their doctor or nurse practitioner for help or advice in order to keep the cost of medicines down. These statements are not only about your Hepatitis C medicines, but also other medicines that you may be taking for other conditions, including things that you may be able to buy from a pharmacy. Please say how often you would do any of the following.

<table>
<thead>
<tr>
<th>I ask my doctor or nurse practitioner to prescribe a longer supply of my medicine to help me when I haven’t got enough money</th>
<th>Always</th>
<th>Often</th>
<th>Sometimes</th>
<th>Never</th>
<th>Not Applicable</th>
</tr>
</thead>
<tbody>
<tr>
<td>If I can’t afford my prescription I ask my doctor or nurse practitioner to recommend something cheaper to buy without a prescription</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>I ask the doctor or nurse practitioner for a free ‘sample’ of medicine to save me having to pay for it on prescription</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
**C4.** The next few statements are again not only about your Hepatitis C medicines, but other medicines that you may be taking for other conditions too, including things that you may be able to buy from a pharmacist or other shop. Please say how often you would behave in such a way.

<table>
<thead>
<tr>
<th></th>
<th>Always</th>
<th>Often</th>
<th>Sometimes</th>
<th>Never</th>
<th>Not Applicable</th>
</tr>
</thead>
<tbody>
<tr>
<td>I get a prescription, if it is covered, because buying an over the counter remedy tends to be too expensive</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>If I can’t afford my prescription I ask the pharmacist to recommend something cheaper to buy</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>I consider the price of a medicine before I buy it without a prescription</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>I prefer to buy something from the pharmacist/ drug store in order to avoid going to see a doctor or nurse practitioner</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>I don’t take anything, because I cannot afford to buy medication from a pharmacist or drug store</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>If I cannot afford an expensive over the counter product I ask for something else cheaper at the drug store/pharmacy</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**C5.** This question concerns your views about prescription costs and whether you feel able to discuss cost issues with your doctor. Because nurse practitioners do not sign your prescriptions, we are only going to ask you about doctors, which would include a specialist and/or your family doctor. Again, this is about any medicine, not just your Hepatitis C medicines. Please state how much you agree or disagree with each of the following statements.

<table>
<thead>
<tr>
<th></th>
<th>Strongly Agree</th>
<th>Agree</th>
<th>Not Sure</th>
<th>Disagree</th>

<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>The doctors are more worried about what the medication costs the hospital or government than what I have to spend</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>My doctor is not aware of the problems I have with paying for my prescriptions</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>I don’t tend to talk to my doctor about the cost of my medicines and whether I can afford them or not</td>
<td></td>
<td></td>
<td></td>
<td></td>
