

PhD in Health Program
Professional Development Funding Support Application

In order to serve PhD students more effectively, the Travel Fund is converting to the Professional Development Fund for a period of one year: May 2020 - May 2021 (Edit: extended indefinitely due to COVID-19 restrictions)

Students wishing to apply for professional development funding support from the PhD in Health program are asked to complete the following application and submit it to the Program Administrator at phdhealth@dal.ca at least one month in advance of the proposed event. Funding support will only be considered if the two conditions are met:

- 1) The professional development is directly related to the student's doctoral research.
- 2) The training is approved by the research supervisor.

Professional development may include courses, workshops, and registrations fees for virtual conferences/meetings. Requests will be considered on a first come, first served basis and initially capped at \$500 per student. If funds remain at the end of a given fiscal year, a second call for requests may be initiated. Students may only make one request per year of study in the PhD in Health program.
