

PhD in Health Program

Conference Travel Funding Support Application

Students wishing to apply for conference funding support from the PhD in Health program are asked to complete the following application and submit it to the Program Administrator at phdhealth@dal.ca at least one month in advance of the proposed conference. Funding support will only be considered if all of the following conditions are met.

- 1) The conference is directly related to the student's doctoral research.
- 2) The student is scheduled to present at the conference.
- 3) Travel to the conference is approved by the research supervisor.
- 4) Students have exhausted all other funding avenues such as Supervisor grant funding, travel awards and the Conference Travel Grant offered by the Faculty of Graduate Studies.

Registration fees for local conferences at which students are presenting their doctoral research will be considered.

Requests will be considered on a first come, first served basis and initially capped at \$500 per student. If funds remain at the end of a given fiscal year, a second call for requests may be initiated. Students may only make one request per year of study in the PhD in Health program.
