

Management Career Services – COVID-19 Update #2 to Summer 2020 Students

March 17th, 2020

Good evening,

In a follow up to yesterday's email regarding your Commerce co-op work term or Management internship for this coming summer, Dalhousie Management Career Services would like to provide an update regarding travel.

After consultation with senior Dalhousie officials, we can confirm the following:

- Travel within Canada to your intended co-op or internship location is still permitted.
- Travel outside of Canada to your intended co-op or internship location is permitted **only for students who are returning to their home country.**

Any self-developed co-op or internship position is still subject to the standard work term criteria. Approval must take place **prior to commencing the co-op or internship.**

As COVID-19 and Dalhousie's response to it evolves, we will continue to keep you informed of updates relating to your summer 2020 work term. Please know that no student's academic progression will be delayed due to situations that are beyond their control.

Regardless of your location, we urge you to check your Dal email regularly, as well as the Dalhousie website regarding COVID-19 <https://www.dal.ca/novel-coronavirus.html> for important notices and updates.

Sincerely,

Robert Wooden
Director, Management Career Services
