

Electives to Consider

This list is meant to be a starting point to assist SRES students in choosing electives. Not all courses are offered every year. Not all relevant courses are on this list. Students should check the Timetable and contact the offering department for confirmation of availability and for further information regarding prerequisites and/or permission to register if needed.

Course #	Course Name
AGRI 5460	Special Topics in Ecohydrology (online – uses same number as below)
