

**DALHOUSIE
UNIVERSITY**

FACULTY OF MEDICINE

CANDIDATE'S STATEMENT – Application for promotion (Continuing Appt)

This narrative statement is your opportunity to highlight and explain the academic contributions throughout your career that you think are significant for the committees and individuals considering your application.

You should **state your Career Path** (i.e. Clinician Teacher, Clinician Educator, etc.).

You should also clearly describe the scholarship criterion which has been completely met, if applying under a single scholarship (or the scholarship criteria which have been partially met, if applying under a combination of scholarships).

In the statement, for example, you may wish to:

- Highlight and give more detail on certain **items from your CV or teaching dossier**, explaining the impact (e.g., administrative leadership or educational initiatives which have enhanced teaching and/or research within your department)
- Describe **accomplishments that are not included in your CV or teaching dossier** and evaluate their impact (e.g., innovative laboratory technique, attracting elective fellows to spend time learning with you, currently being written up for publication)
- Provide a perspective on **initiatives underway presently or in the near future** and results that you anticipate (e.g., future directions of research, enrolment in faculty development, future leadership role)
- If applicable, mention any significant special circumstances which have arisen during your career that have affected your performance (e.g., periods of absence or reduced responsibility, unsuccessful research initiatives, geographic relocation)

The statement should generally not exceed 4 pages.

A copy of your Career Path Profile should be attached to your statement.
