APPENDIX – Guidelines for the Application of Dalhousie University’s Policy on Conflict of Interest by Members of the Faculty of Medicine Admissions & Interview Committees

Purpose

Dalhousie University’s Policy on Conflict of Interest (the “Policy”) (https://cdn.dal.ca/content/dam/dalhousie/pdf/dept/university_secretariat/policy-repository/ConflictInterestPolicy.pdf) applies to the Admissions and Interview Committees of the Faculty of Medicine. The purpose of these Guidelines is to assist those Committees apply the Policy to their activities.

Identifying Potential and Actual Conflicts of Interest

Under the Policy, “a conflict of interest exists where there is a potential or actual divergence between the personal interests of a university member and that member’s obligations to uphold the interests and mission of the university.”

When determining whether a potential or actual conflict of interest exists, Committee Members must consider whether an impartial observer would reasonably question whether actions or decisions by a Committee Member may be influenced by that Member’s (or a closely associated person to that Committee Member’s) personal, private, or financial interests.

A. Conflicts of Interest Involving Committee Members Themselves

The Faculty of Medicine’s Admissions Office takes the view that a conflict of interest exists, without limitation, in situations where a Committee Member is:

- related by blood, marriage, adoption or familial relation to the applicant;
- in or has been in a significant teaching or social relationship with the applicant;
- has been identified as a verifier/reference in support of the applicant’s application;
- in a significant social relationship with someone who is related to the applicant; or

- where a conflict of interest relating to the applicant and the Committee Member has been previously identified.

B. Conflicts of Interest Involving Closely Associated Person to a Committee Member

The Faculty of Medicine's Admissions Office takes the view that a conflict of interest may exist, without limitation, in situations where someone related to a Committee Member by blood, marriage, adoption, or common law marriage or is otherwise in an intimate personal relationship with the Committee Member is:

- related by blood, marriage, adoption or familial relation to the applicant;
- in or has been in a significant teaching or social relationship with the applicant;
- has been identified as a verifier/reference in support of the applicant's application; or
- in a significant social relationship with someone who is related to the applicant;

Disclosing Potential or Actual Conflicts of Interest

If a Committee Member identifies a potential or actual conflict of interest, they are required to take the following steps:

- (1) If a Committee Member is aware of an applicant who is related to them by blood, marriage, adoption or familial relation, they must withdraw from the Admissions or Interview Committees for that admissions cycle.
- (2) Except for those circumstances captured under (1) above, if a Committee Member is aware of an applicant falling within any category listed in "A. Committee Members Themselves" above, the Committee Member shall immediately disclose any actual or potential conflict of interest, including all pertinent information, to the Assistant Dean, Admissions or Director, Admissions. Unless otherwise directed by the Assistant Dean, Admissions, that Committee Member will not review that applicant's file, interview or rank that applicant, or be present when that applicant's file is discussed. In the event that the potential or actual conflict of interest is only discovered upon entering an interview room, the Committee Member must excuse themselves from the interview.
- (3) Except for those circumstances captured under (1) and (2) above, if a Committee Member is aware of an applicant falling with any category listed in "B. Individual Related to a Committee Member", the Committee Member shall immediately disclose any actual or potential conflict, including all pertinent information, to the Assistant Dean, Admissions or Director, Admissions. The Committee Member will not review that applicant's file, interview or rank that applicant, or be present when that applicant's file is discussed until such time as the Assistant Dean, Admissions has had the opportunity to determine if a conflict of interest exists and how the conflict of interest will be handled.
