

FUNDAMENTALS OF TEACHING PROGRAM

The Fundamentals of Teaching Program is a series of **online** courses designed to support teachers and educators in the Dalhousie Faculty of Medicine. Join us this winter for our newest Course.

Course: Expand your Bandwidth! Integrating technology into your teaching!

January 1- February 15 2024 | Webinars: Jan 15th, 22nd and 29th, Feb 5th | 7-9 pm

- Do you feel intimidated regarding the use of technology?
- Do you feel overwhelmed when technology does not work as you expect?
- Would you like to try a technology you have seen others use?

If you answered yes to any of these questions, read on!

This course has been created to increase your comfort with teaching using technology in both the virtual, hybrid and face to face teaching environments.

Objectives: By the time they have completed the course, participants will be able to:

- Create effective PowerPoint presentations that demonstrate knowledge of inclusivity, active learning and cognitive load.
- Deliver interactive presentations when using Microsoft Teams
- Effectively integrate technology into teaching whether online, hybrid or face-to-face.
- Use knowledge gained to provide effective teaching feedback.

Units:

1. Tips and Tricks When Teaching Online
2. The Importance of Active Learning and Cognitive Load
3. Its playtime! Engage with different technologies.
4. Microteaching: Time for Show and Tell!
