

HOW TO USE AI TO GENERATE EXAM QUESTIONS

Professional Development Online Seminar Series (Teaching)

Dr. Natalie Lutwick

May 28, 2024

6:30-7:30 pm

In this interactive workshop participants will:

- Reflect on ethical considerations and best practices associated with using AI technologies, such as ChatGPT, to develop test questions, including issues related to bias, fairness, and privacy.
- Apply fundamental principles of effective multiple-choice question design in the context of AI prompting language to generate test questions that demonstrate clarity, relevance, and alignment with learning objectives.
- Develop strategies for refining and customizing multiple-choice questions generated by ChatGPT to align with specific learning objectives, target audiences, and assessment needs.
