

Appendix G

This small conference has been provided annually for five years in various sites across Nova Scotia and in the past year one site in New Brunswick. The co-provided event in New Brunswick in 2019 was successful and we plan to do so again in 2020 and onward. Outcomes from the event in New Brunswick were integrated into our overall evaluation for this conference.

The opportunity to present our work at the National Accredited Providers' Conference would provide an appropriate venue and forum for sharing this model for conference development. We will also submit this conference model together with our evaluation to the Choosing Wisely Canada *Unnecessary Conference* for 2021.
