

**Who are we?** The Department of Bioethics promotes social justice and advances ethics in and of health care practice. Collaborating with practitioners, educators, learners, policy makers, and health organizations, we develop ethics capacity in multiple spheres of health. Challenging questions and issues emerge in these contexts, and, in our scholarship, we explore and enhance understanding of their ethical dimensions.

<b>Department of Bioethics – 2017-2022 priorities</b>	Education	Serving and Engaging	Research
