

Anemia

The resident will be able to:

1. Define anemia
2. Seek mechanisms by which the anemia occurs
3. Interpret the CBC to determine what kind of anemia is present
4. Identify and interpret subsequent laboratory tests to help diagnose the associated diseases that cause anemia
5. Identify what patients need urgent/emergent referral and treatment

Feedback and suggested modifications for these objectives are encouraged after each session. Please direct your comments to your site Curriculum Coordinator.
