

Chronic Obstructive Pulmonary Disease

The resident will be able to describe:

1. Clinical Presentation
2. Appropriate History/questions
3. Appropriate physical exam
4. Differential diagnosis including red flags
5. Evidence based therapeutic approach based on current guidelines
 - a. non-pharmacologic including lifestyle counseling
 - b. pharmacologic including drugs to add to the resident's personal formulary
6. Indications for consultation
7. Controversies

The presenter will use a series of cases addressing the following:

1. Management of a stable patient with COPD
2. Management of acute exacerbations of COPD

Feedback and suggested modifications for these objectives are encouraged after each session. Please direct your comments to your site Curriculum Coordinator.
