

Dementia

The resident will be able to:

1. Describe the diagnostic criteria for dementia
2. Identify the differences between dementia and delirium
3. Detail the investigations to rule out a reversible cause of dementia
4. Describe the natural progression of dementia including behavioral changes
5. Outline screening tools for dementia
6. Describe pharmacotherapy and non-pharmacotherapy options for treating dementia

Feedback and suggested modifications for these objectives are encouraged after each session. Please direct your comments to your site Curriculum Coordinator.
