

Disability Seminar Objectives (revised May 19, 2016)

At the completion of this seminar the resident will be able to:

- 1) Explain and contrast the concepts of impairment and disability.
- 2) Assess for, counsel re prevention and diagnose disability in those at risk (e.g. the elderly, chronic disease)
- 3) Recognize the multiple spheres of function that may be involved in disability and construct a management plan accordingly.
- 4) Appropriately recommend work absence or restriction and assist in appropriate return to work planning.
- 5) Identify and assist with application for appropriate financial supports.
