

# Immunization

The resident will be able to:

1. Describe current childhood and adult immunization schedules and situations in which it should and should not be deferred
2. Modify this schedule for persons at higher risk
3. Effectively counsel adults on the benefits, risks and minor side effects of immunization for themselves and their children
4. Express a clear strategy for documenting and scheduling immunization

*Feedback and suggested modifications for these objectives are encouraged after each session. Please direct your comments to your site Curriculum Coordinator.*
