Personality Disorders

At the completion of the seminar the resident will be able to:

1. Describe the key diagnostic features of personality disorders per DSM-5
2. Describe Cluster A, B and C characteristics.
3. Outline the goals of therapy.
4. Describe an interview strategy to establish a specific personality disorder.
5. Describe indications for investigation and referral.
6. Describe an initial pharmacologic and non-pharmacologic approach to treatment.
7. Outline a disposition and follow-up approach based on severity.

Feedback and suggested modifications for these objectives are encouraged after each session. Please direct your comments to your site Curriculum Coordinator.
