

## POLICY

### Department of Family Medicine Postgraduate Program

## Electives at Dalhousie for External Canadian Medical Graduates

All elective trainees are responsible to make their own elective arrangements directly with the Department in which they wish to conduct their elective training. After elective arrangements have been confirmed, elective trainees are required to register with Postgraduate Medical Education in the Faculty of Medicine, Dalhousie University, by completing an On-line Application for Elective Training found at: <https://medicine.dal.ca/departments/core-units/postgraduate/visiting-doctor-electives.html>

Upon receipt of the application, the PGME Office will send an email confirming the elective to the elective supervisor, the University Department, the Medical Staff Office of the appropriate hospital, and the College of Physicians and Surgeons (Nova Scotia, New Brunswick, or PEI).

Please note that the College will not issue an educational license prior to registration with the PGME Office.

The trainee must complete and meet all requirements of the elective request process with PGME (see requirements on-line).

Depending on the site at which the resident is placed, other documentation and/or criteria may be required.

Only when all the above has been completed will the resident be licensed, credentialed, and able to start their elective training.
