Hematologist
Division of Hematology
Dalhousie University/Nova Scotia Health Authority
Halifax, Nova Scotia

The Department of Medicine, Dalhousie University/Nova Scotia Health Authority seeks applications for a Hematologist at the QEII Health Sciences Centre site. This is a combined Hospital/University position. This position will be 0.5 clinical and 0.5 research, with research to be focused on inherited hematologic malignancies.

The Division of Hematology is one of 15 divisions in the Department of Medicine, providing compassionate care of patients with hematological disorders whose disease may be benign or malignant. The Division is committed to excellence in clinical care, education, and research.

Nova Scotia offers exceptional cultural and recreational opportunities in addition to a high quality of life.

Academic rank will be dependent upon qualifications & experience. Candidates must have FRCP(C) certification (or equivalent) in Hematology, and be eligible for specialty licensure in Nova Scotia. Experience in care of patients with benign and malignant hematologic conditions is required. Funding success and research potential in hematology is preferred.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. Dalhousie University is committed to fostering a collegial culture grounded in diversity and inclusiveness. The university encourages applications from Indigenous people, persons with a disability, racially visible persons, women, persons of minority sexual orientations and gender identities, and all candidates who would contribute to the diversity of our community.

To apply for this position, please send a cover letter, Curriculum Vitae and names and addresses of three referees to Chad Shearer by email at chad.shearer@nshealth.ca. A complete application also includes a completed Self-Identification Questionnaire, which is available at www.dal.ca/becounted/selfid.

Closing date for applications is November 1, 2019.
