

GRAND ROUNDS

Tuesdays, 8:00-9:00am
via Zoom

Tuesday, February 15, 2022

8:00 - 9:00

Title: "Frailty, Vaccines and Vaccine Preventable Illnesses"

Presenter: Dr. Melissa Andrew
Division of Geriatric Medicine

Objectives:

- Discuss the association of frailty with immune dysregulation, which may impair the ability to resist infection and respond to vaccination.
- Review how frailty affects older adults' responses to a variety of vaccines and infections such as influenza, shingles, and COVID-19.
- Discuss how frailty could be considered in vaccine development, testing, and program implementation.

**Complete attendance and evaluation online at:
