Grand Rounds are a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada

Grand Rounds are available in person at the Halifax Infirmary, and via Telehealth. Please contact Heather.Fraser@nshealth.ca if any questions.

ROUNDS OBJECTIVES

February 5

Dr. T. Jock Murray

“Artists Who Painted Their Illnesses”

Objectives:

Attendees should be able to:

- Identify artists who illustrated their illness.
- Recognize the different threats that lead to suffering.
- Recognize that suffering can be expressed through art.

February 12

Dr. Alex Nelson

“Respiratory Care in Neuromuscular Disease”

Objectives:

- Review the assessment of respiratory muscle strength.
- Review general respiratory care for patients with respiratory muscle weakness.
- Review the indications for non-invasive ventilation in patients with respiratory muscle weakness.

February 19

Dr. David Taylor

“Succeeding with Residency Education in the World of CBME – Skeptics ~~Welcome~~ Needed”

Objectives:

- Recognize short-comings of traditional approaches to medical education.
- Identify legitimate criticisms as well as mythology around competency-based medical education.
- Articulate evidence underlying Competence by Design.
- Recognize how to blend assessment expectations and established patient care workflow.
- Describe a plan for success with CBD that lives in the real world.

February 26

Dr. Daniel Rayson

“The Wild Kingdom of Neuroendocrine Tumors: Recognizing the Zebras amongst the Horses”

Objectives:

- To gain an appreciation of the clinically diverse nature of neuroendocrine tumors.
- To learn the key clinical and diagnostic steps in the evaluation of neuroendocrine tumors.
- To appreciate the scope of local-regional and systemic therapies for neuroendocrine tumors.
- To understand the role of the multidisciplinary neuroendocrine team.
