

- January 2, 2018:**                   **Title:**           "Damage Control Resuscitation"  
**Presenter:**   Dr. Brent Culligan  
(Division of General Internal Medicine)
- January 9, 2018:**               **Title:**           "Evidence in Medicine: Math vs Biology!"  
**Presenter:**   Dr. Tallal Younis  
(Division of Medical Oncology)
- January 16, 2018:**             **Title:**           "Lytics, Filters and Clots, Oh My!"  
**Presenter:**   Dr. Sudeep Shivakumar  
(Division of Hematology)
- January 23, 2018:**             **Title:**           "Leveraging Technology to Enhance Assessment"  
**Presenter:**   Dr. Farhan Bhanji  
(Education Rounds)
- January 30, 2018:**             **Title:**           "Type II Diabetes and Dementia: A Public Health Perfect  
Storm"  
**Presenter:**   Dr. Kata Koller  
(Division of Geriatric Medicine)

Grand Rounds are a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada

Grand Rounds are available in person at the Halifax Infirmary, and via Telehealth. Please contact [Heather.Fraser@nshealth.ca](mailto:Heather.Fraser@nshealth.ca) if any questions.

## ROUNDS OBJECTIVES

### January 2, 2018

Dr. Brent Culligan

Division of General Internal Medicine

*“Damage Control Resuscitation”*

#### Objectives:

- Understand the epidemiology of combat trauma and the causes of death (The problem); and,
- Gain a better understanding of what products and tools are available for damage control resuscitation (Tools); and,
- Review the evidence for resuscitative triggers, to better decide when to use what products and weigh the risk vs benefit of resuscitative products. (How to use the tools).

### January 9, 2018

Dr. Tallal Younis

Division of Medical Oncology

*“Evidence in Medicine: Math vs. Biology!”*

#### Objectives:

- To highlight clinical updates (10-years) that maximize benefit/risk of adjuvant chemotherapy in breast cancer.
- To illustrate the impact of math vs. biology in today’s evidence-based clinical decisions in oncology.

### January 16, 2018

Dr. Sudeep Shivakumar

Division of Hematology

*“Lytics, Filters and Clots, Oh My!”*

#### Objectives:

- To provide a brief background of venous thromboembolic disease (VTE)
- To discuss recent evidence for:
  - Thrombolysis in PE
  - Thrombolysis in DVT
  - IVC filters

**ROUNDS OBJECTIVES**

**January 23, 2018**

Dr. Farhan Bhanji

Education Rounds

*“Leveraging Technology to Enhance Assessment”*

Objectives:

Upon completion of this session, the participant will be able to:

- Explain the role of assessment in education and what makes for ‘good assessment’
- Describe how technology can be leveraged to improve the quality of assessment

**January 30, 2018**

Dr. Kata Koller

Division of Geriatric Medicine

*“Type II Diabetes and Dementia: A Public Health Perfect Storm”*

Objectives:

- Review health burden associated with DM II and Dementia
- Review proposed shared pathophysiology between DM II and Dementia
- Review potential treatment strategies for diabetics with cognitive impairment
- Review shared prevention initiatives
