

GRAND ROUNDS

Tuesdays, 0800-0900

Via Zoom

March 2, 2021

8:00-9:00

Title: Interdisciplinary Management of Differentiated Thyroid Cancers

Presenter: Dr. Nathan Lamond, Division of Medical Oncology

Dr. Ali Imran, Division of Endocrinology

Dr. Murali Rajaraman, Division of Radiation Oncology

Objectives:

- Review the unique and challenging epidemiology of thyroid cancers
- Explore the roles of various team members in the interdisciplinary management of differentiated thyroid cancers using a case presentation
- Recognize the definition and importance of radioactive iodine-refractory (RAI-R) thyroid cancers
- Gain insight into the evolving role of systemic therapy in the treatment of RAI-R thyroid cancers

Evaluation:
