

GRAND ROUNDS

Tuesdays, 0800-0900

Via Zoom

March 23, 2021

8:00-9:00

Title: Cancer Immunotherapy: A Double-Edged Sword?

Presenter: Dr. Janet Roberts

(Division of Rheumatology)

Objectives:

- To review the role of immune checkpoints in health, autoimmune disease, and cancer
- To identify the most common rheumatic complications of immunotherapy
- To identify the efficacy and safety of immunotherapy in those with pre-existing autoimmune disease

Evaluation:

Complete evaluation on line
