

RESIDENT SUMMER GRAND ROUNDS

TUESDAYS 0800 – 0900 hr

ROYAL BANK THEATRE, HALIFAX INFIRMARY

SUMMER 2018

August 7 *Pierre Landry*

“COPD - A Breath of Fresh Air”

Alex Legge

*“Cardiovascular Disease Among Patients with
Rheumatoid Arthritis”*

August 14 *Shannon Murphy*

*“Using Comorbidities to Predict
One-Year Mortality among Patients with
Acute Myeloid Leukemia”*

Doug Motomura

“Colorectal Cancer Screening in Canada”

August 21 *Kyle Murnaghan*

*“Just Breathe: Rethinking Oxygen
Therapy in Myocardial Infarction”*

Julie Mongeau

“Comorbidities in Rheumatoid Arthritis”

August 28 *Badr Alhumayyd*

“PPI Side Effects, Truth or Myth?”

Lazar Milovanovic

*“The Quest for Clinical Judgement: Evaluating
IM Residency Education”*

ROUNDS OBJECTIVES

August 7

Pierre Landry

“COPD – A Breath of Fresh Air”

Objectives:

- Review the latest COPD guidelines, including new classification criteria
- Review inhaled therapy for COPD
- Review treatment of COPD exacerbations

Alex Legge

“Cardiovascular Disease among Patients with Rheumatoid Arthritis”

Objectives:

- To understand the increased risk of atherosclerotic cardiovascular disease (CVD) among patients with rheumatoid arthritis (RA).
- To recognize how both traditional and disease-specific risk factors contribute to the increased CVD risk observed among patients with RA.
- To describe an approach to CVD risk management for patients with RA.

August 14

Shannon Murphy

“Using Comorbidities to Predict One-Year Mortality among Patients with Acute Myeloid Leukemia”

Objectives:

- To review the evidence on the impact of comorbidities on one-year mortality in patients with acute myeloid leukemia (AML)
- To describe the study in progress to validate use of the AML Composite Model to predict one-year mortality among AML patients in Atlantic Canada.
- To briefly discuss current guidelines on treatment approaches in AML and potential implications of incorporating comorbidity indices

Doug Motomura

“Colorectal Cancer Screening in Canada”

Objectives:

- Overview the current colorectal screening guidelines for Canada and Nova Scotia
- Investigate the evidence behind colorectal cancer screening
- Discuss the utility of FOBT as a diagnostic tool

ROUNDS OBJECTIVES

August 21

Kyle Murnaghan

“Just Breathe: Rethinking Oxygen Therapy in Myocardial Infarction”

Objectives:

- Review the historical practices and evidence for supplemental oxygenation in myocardial infarction
- Review the pathophysiology of supplemental oxygenation in myocardial infarction
- Explain and discuss practice changing evidence for the use of supplemental oxygenation in myocardial infarction

Julie Mongeau

“Comorbidities in Rheumatoid Arthritis”

Objectives:

- Review the articular and extra-articular manifestations of rheumatoid arthritis
- Review the prevalence of comorbidities associated with rheumatoid arthritis (i.e. cardiovascular disease, cancer, osteoporosis)
- Review the management of comorbidities associated with rheumatoid arthritis

August 28

Badr Alhumayyd

“PPI Side Effects, Truth or Myth?”

Objectives:

- Introduction
- Benefits and indications of PPI
- Evidence behind PPI side effects

Lazar Milovanovic

“The Quest for Clinical Judgement: Evaluating IM Residency Education”

Objectives:

- Define “clinical judgement” and “clinical gestalt”
- Evaluate the current structure of clinical experience in internal medicine residency
- Review the pedagogical strategies and future directions in internal medicine residency education
