Dr. Kerri Purdy, Assistant Professor, joins us from the University of Ottawa’s Dermatology Division where she also held a private practice. Dr. Purdy is no stranger to Nova Scotia having previously worked with the Department of Medicine for three years (2011-2014) and completing both her MD and residency at Dalhousie University. She completed her Fellowship in dermatology in 2011. Dr. Purdy re-joined the Department this past August.

Dr. Caroline Heughan, Assistant Professor, joined the Division of Clinical Dermatology and Cutaneous Science this past September. Dr. Heughan joins us from the University of Ottawa where she was a Division member and worked in private practice. She completed her medical degree here at Dalhousie University followed by her residency at the University of Ottawa. She completed her fellowship in dermatology in 2011.

We are pleased to welcome Dr. Osama Elkateeb for a seven-month locum with the Cardiology Division. Dr. Elkateeb previously held the position as the Director of Cardiac Center and Consultant Interventional Cardiologist at the King Abdullah Medical City in Holy Capital, Saudi Arabia. Dr. Elkateeb completed his Fellowship at Dalhousie in 2009 and stayed in Nova Scotia working in the Department of Medicine until 2011.

Dr. Sharon Mulvagh, Professor, also joined the Division of Cardiology in November as a part-time member (BITE). Dr. Mulvagh was previously the Director of Women’s Heart Clinic and member of Division of Cardiovascular Diseases, Mayo Clinic and the Associate Director of Preventive Cardiology in Minnesota. Dr. Mulvagh did her residencies at Dalhousie University, Boston University and the Baylor College of Medicine. She has her fellowship in both cardiology and internal medicine.

Dr. Suzanne Salsman, Assistant Professor, joined the Division of Physical Medicine & Rehabilitation in August. She completed her MD in 2010 and her PM&R residency from 2011-2016 at Dalhousie. Dr. Salsman was chief resident in 2012-13. She received her FRCP in June 2016.

> Congratulations to the following department members who received academic promotion as of July 1, 2016.

To Professor:
Dr. Kevork Peltekian, Division of Digestive Care & Endoscopy
Dr. Tallal Younis, Division of Medical Oncology

To Associate Professor:
Dr. Chris Gray, Division of Cardiology
Dr. Marie Laryea, Division of Digestive Care & Endoscopy

Faculty profiles include information such as research and/or clinical interests, publications, education, biography and memberships. They may also include links to an external or internal project or organization website, twitter feed and more. The profiles easily enable you to participate in the Experts @ Dal program, which identifies you as a subject expert who is willing to speak to the media on your designated topic area(s).

Alternatively, the minimum required information in a profile is the faculty member’s name, academic rank and contact, which has already been inputted for each faculty member in the Department as part of the website project. The profiles allow others, such as potential collaborators, granting agencies, students and residents, to search for faculty members and retrieve their clinical and research interests, current projects and more. To learn more, please review the profile guidelines. To get started with your profile, contact Samantha Holmes, communication advisor, at samantha.holmes@dals.ca.

We are pleased to welcome Samantha Holmes, the Department’s new Communications Advisor. Sam is a senior communications specialist, previously working as the Director of Communication at Nova Scotia Health Authority. Thanks goes to Cindy Buyers who previously supported the Department and has now moved on to a new role.

As we work through these changes I commit to do my best to keep you well informed. In return, I appreciate your help in making every effort to stay informed by reading my updates and attending Department meetings. I also hope you will all become familiar with the current draft Practice Plan (previously distributed) and provide your feedback by the Dec. 16 deadline.

We are working toward having our new final practice plan developed, ratified and in place by April 1, 2017.

I continue to be pleased to see the exemplary work put forward by each of you, every day. I was reminded of our talent during this past month’s Department of Medicine’s Research Evening where we celebrated our research community. There was a strong departmental turnout, and we recognized specific contributions as outlined in the body of this newsletter. The efforts of Dr. Hardy and the Research Committee are bearing fruit!

I hope to see you all this year’s Holiday Reception on Dec. 15th at the Waegwalt Club. Please drop in anytime between 6:30 p.m. and 10 p.m.

As always, if you have any questions or feedback, don’t hesitate to reach out to me.

Simon Jackson, MD, FRCP(C), MMEd
Interstitial Head, Department of Medicine, Dalhousie University
District Chief, Department of Medicine, Nova Scotia Health Authority
Professor of Medicine, Dalhousie University
simon.jackson@nshealth.ca

We are working toward having our new final practice plan developed, ratified and in place by April 1, 2017.

Dr. John Sapp, Professor
With a long list of research accomplishments to his name, Dr. John Sapp, a clinical cardiac electrophysiologist in the Division of Cardiology, was also honoured with the Department of Medicine Research Excellence Award. John’s clinical and research interests include methods for improving cardiac mapping and catheter ablation, management of ventricular tachycardia, and studies to better understand the relationship between physical medicine and rehabilitation.
heart failure and heart rhythm abnormalities. He was the principal investigator for the VANISH clinical trial (2009-2016), which showed that catheter ablation is a better treatment for recurrent ventricular tachycardia (VT) than increased drug therapy. He is now continuing with the VANISH2 Pilot Study. In just the last three years, Dr. Sapp published 29 peer-reviewed journal articles, most of which were in the VANISH findings published in the New England Journal of Medicine (first author). He has authored two books and has drawn standing-room-only crowds for his presentations.

**Research Evening 2016: Showcases three researchers work**

On Nov. 9 more than 60 people gathered for our annual Department of Medicine's Research Evening to celebrate research successes and contributions. In addition to celebrating the two newest recipients of the Research Excellence Awards (see above), three researchers took the stage to share their research insights.

**Dr. Melissa Andrew,** Division of Geriatric Medicine, presented on “Forays into Frailty.” Dr. Ravi Ramesjithsing, Division of Medical Oncology, providing insight on “Pancreatic Cancer: Using, Collaboration and Science to Save Lives”; and Dr. Leah Cahill, the Howard Webster Department of Medicine Research Chair, gave a highly stimulating talk on “How Diet and Genes Interact.”

Dr. John Sapp is the new Interim Division Head, Chief, Cardiology and Co-lead Heart Health Program. He has served as director of the Heart Rhythm Laboratory and Service since 2004 and sits on various department committees. Other current roles include chair of the Canadian Institutes of Health Research clinical cardiovascular grant review committee, a trustee of the QEII Foundation and Co-Chair of the Maritime Heart Centre Development Council. Dr. Sapp received his M.D. from Dalhousie in 1994, followed by his residency in Internal Medicine and Cardiology here in Halifax and his fellowship in Cardiac Electrophysiology at Brigham and Women’s Hospital in Boston. Dr. Sapp succeeds Dr. Cathy Kells who has been elected President of the Canadian Cardiovascular Society. Her leadership expertise will be shared widely in this national role. Thanks to Dr. Kells for her eight years of tremendous dedication to the cardiology community and Heart Health program.

**Dr. Sapp receives $300,000 from Hospice Halifax**

As part of its plan to expand access to quality palliative care, the QEII Palliative Care Service has partnered with Rotary Clubs of Metro Halifax and the QEII Foundation to make a formative donation to Hospice Halifax in support of Nova Scotia’s first residential hospice facility. The QEII portion of the $300,000 matched funding was made possible through years of community donations in honour of QEII Palliative Care patients that have been targeted to improve palliative care services in our community.

Hospice Halifax receives $300,000

Hospice Halifax receives $300,000 from the QEII Foundation. This donation will be used to expand access to quality palliative care services in the community. Dr. Rob Horton, Division of Geriatric Medicine, welcomes Lacey to the world in October.

**Medicine Matters Conference**

On Nov. 25 the Department of Medicine partnered with the Nova Scotia Health Authority (NSHA) for the annual Medicine Matters conference. This event was the starting point to engage with Interna-Medicine physicians, in an ongoing, collaborative relationship to achieve a shared vision of improving Acute Medicine Services within NSHA.

This event is the beginning of what is hoped to be a valuable process of planning to meet the needs of the medically ill patients within the NSHA. The event had an excellent turnout with high quality presentations and great discussions. The next steps will be to put in action easily implementable change to help meet the needs of referring internists and subspecialists.

**New Interim Division Head/Chiefs**

Congratulations to Dr. Stephen Workman for his appointment as Interim Division Head/Chief, General Internal Medicine effective Nov.1. We would like to thank Dr. David Simpson for his significant contributions over the years in General Internal Medicine as the Division Head/Chief and as an active member of the Department of Medicine. Dr. Simpson will continue as a member of the division, and in his leadership role with the MTU.

We welcome Dr. Volodko Bakowsky as our new Interim Division Head/Chief for Rheumatology. Dr. Bakowsky capably took over the role in July. Our thanks goes out to Dr. Evelyn Sutton for the 11 years of leadership she provided to the division before she stepped down this past June. Evelyn will continue to lead the undergraduate curriculum of the medical school in her capacity as Associate Dean UGME.

Dr. John Sapp is the new Interim Division Head, Chief, Cardiology and Co-lead Heart Health Program. He has served as director of the Heart Rhythm Laboratory and Service since 2004 and sits on various department committees. Other current roles include chair of the Canadian Institutes of Health Research clinical cardiovascular grant review committee, a trustee of the QEII Foundation and Co-Chair of the Maritime Heart Centre Development Council. Dr. Sapp received his M.D. from Dalhousie in 1994, followed by his residency in Internal Medicine and Cardiology here in Halifax and his fellowship in Cardiac Electrophysiology at Brigham and Women’s Hospital in Boston. Dr. Sapp succeeds Dr. Cathy Kells who has been elected President of the Canadian Cardiovascular Society. Her leadership expertise will be shared widely in this national role. Thanks to Dr. Kells for her eight years of tremendous dedication to the cardiology community and Heart Health program.

**Notable - Awards & Publications**

Congratulations to Dr. Lori Connors, Division of General Internal Medicine for receiving the Early Career Award from the Canadian Society of Allergy and Clinical Immunology in early October.

Hans off to Dr. Olga Theou, a postdoctoral fellow in the Division of Geriatric Medicine, for being recognized by the Journal of the American Geriatrics Society. Through a process of citation counting and editorial board voting the Journal selected the top 20 papers published in the last 16 years. Dr. Theou’s Operationalization of frailty using eight commonly used scales and their ability to predict all-cause mortality (2013) appeared on the list. (Yoshikawa et al. JAGS 2015:64:1763-8.)

**Farewell & Best Wishes**

Best wishes to Dr. Dennis Bowie who retired (again!) from the Division of Respiratory for the article: Canadian Registry of Implantable Electronic Devices to Save Lives: A Quality Improvement Initiative for the management of patients with pacemaker-dependent bradyarrhythmias. Dr. Bowie will however continue to contribute to the Department through his ongoing research.

Best wishes to Wendy Potier, Team Lead with the Division of Cardiology, on her retirement this December.

Best wishes to Dr. Janet Gordon, Division of Geriatric Medicine, on her retirement in June.

Congratulations and best wishes to Department Head's Executive Assistant. Dr. ratika Parkash, Division of Cardiology, welcomed baby girl Rosin in October. Congratulations to the Department’s newlyweds:

Dr. Alex Nelson, Division of Respiratory was married in August.
Sarah Milligan, Division of Nephrology was married in September.
Dr. Chris MacKnight, Division of Respirology was married in August.
Dr. Alex Nelson, Division of Respiratory was married in August.
Sarah Milligan, Division of Nephrology was married in September.
Elizabeth Keast, Administrative Assistant with the Division of Geriatric Medicine was married in September.
Dr. Chris MacKnight, Interim Head with the Division of Geriatric Medicine was married in October.
Dr. Jessica Corbett, Medical Oncology Resident was married in August.
Dr. Helen Curran, Division of Cardiology was married in October.

Dr. Helen Curran, Division of Cardiology was married in October. Note: Dr. Curran has changed her last name to Bishop.

If you know a colleague who has recently married or has had a new child, please share the news with Helen Parsons (helen.parsons@nshealth.ca).

**Mission: We are a diverse group of highly trained professionals dedicated to improving health through education, research and providing exemplary clinical care to our community**

This event is the beginning of what is hoped to be a valuable process of planning to meet the needs of the medically ill patients within the NSHA. The event had an excellent turnout with high quality presentations and great discussions. The next steps will be to put in action easily implementable change to help meet the needs of referring internists and subspecialists.

**NOTABLES - AWARDS & PUBLICATIONS**

**CONGRATULATIONS - BIRTHS & MARRIAGES**

Knowing our professional lives make up only one part of who we are, we are introducing this new section to celebrate those other important, yet more personal, life milestones.

The following Department members welcomed a new member to their families:

- Dr. Mary Halpine, resident with the Division of Physical Medicine and Rehabilitation welcomed baby Maximilian to their family in June.
- Dr. Andrew Moeller, resident with the Division of Cardiology welcomed baby Laura in June.
- Mariass MacLean, Administrative Assistant with the Division of Geriatric Medicine brought baby Gavin into the world in July.
- Dr. Robyn Macfarlane, Division of Medical Oncology, welcomed her baby girl Eva to the world in May.
- Dr. Sarah Ramser, Division of Cardiology, had baby boy William in August.
- Dr. Robbie Stewart, Division of Cardiology, welcomed Lacey to his family in September.
- Dr. Glenn Patirquin, resident in the Division of Infectious Diseases welcomed Molly in October.
- Muris Adamaski, Administrative Assistant with the Division of Digestive Care & Endoscopy brought baby Jonah into the world in October.
- Dr. Jason Yung, Division of Cardiology, welcomed baby girl Rosin to their family in November.

Congratulations to the Department’s newlyweds:

- Dr. Alex Nelson, Division of Respirology was married in August.
- Sarah Milligan, Division of Nephrology was married in September.
- Elizabeth Keast, Administrative Assistant with the Division of Geriatric Medicine was married in September.
- Dr. Chris MacKnight, Internist Head with the Division of Geriatric Medicine was married in October.
- Dr. Jessica Corbett, Medical Oncology Resident was married in August.
- Dr. Helen Curran, Division of Cardiology was married in October.

Note: Dr. Curran has changed her last name to Bishop.

If you know a colleague who has recently married or has had a new child, please share the news with Helen Parsons (helen.parsons@nshealth.ca).

**MEDICINE MATTERS CONFERENCE**

On Nov. 25 the Department of Medicine partnered with the Nova Scotia Health Authority (NSHA) for the annual Medicine Matters conference. This event was the starting point to engage with Internists physicians, in an ongoing, collaborative relationship to achieve a shared vision of improving Acute Medicine Services within NSHA.

This event is the beginning of what is hoped to be a valuable process of planning to meet the needs of the medically ill patients within the NSHA. The event had an excellent turnout with high quality presentations and great discussions. The next steps will be to put in action easily implementable change to help better meet the needs of referring internists and subspecialists.

**FAREWELL & BEST WISHES**

Best wishes to Dr. Dennis Bowie who retired (again!) from the Division of Respirology on July 31. Dr. Bowie will however continue to contribute to the Department through his ongoing research.

Best wishes to Wendy Potier, Team Lead with the Division of Cardiology, on her retirement in June.

Best wishes to Dr. Janet Gordon, Division of Geriatric Medicine, on her retirement in June.

Best wishes to Dr. Olga Theou, Division of Internal Medicine, on her retirement in January.

Congratulations and best wishes to Department Head’s Executive Assistant Helen Parsons who has decided to move onto the next chapter of her life effective February 2017. Sincere thanks to Helen for the excellent support she has offered the department over the last number of years.

Best wishes to Peggy Hobbs, Team Lead with the Division of Geriatric Medicine. She is retiring after 33 years of service in the Division of Geriatric Medicine this December.

**MISSION: WE ARE A DIVERSE GROUP OF HIGHLY TRAINED PROFESSIONALS DEDICATED TO IMPROVING HEALTH THROUGH EDUCATION, RESEARCH AND PROVIDING EXEMPLARY CLINICAL CARE TO OUR COMMUNITY**

**PAGE 2**
With the Department of Medicine’s continuing efforts to improve its online presence, that is to make it more robust, ensure it aligns with Dalhouse’s guidelines and is kept up to date, Faculty members are asked to maintain an online profile via the Department’s website.

Faculty profiles include information such as research and/or clinical interests, publication education, biography and memberships. They may also include links to an external or internal project or organization website, twitter feed and more. The profiles easily enable you to participate in the Experts @ Dal program, which identifies you as a subject expert who is willing to speak to the media on your designated topic(s).

Alternatively, the minimum required information in a profile is the faculty member’s name, academic bank and contact, which has already been inputted for each faculty member in the Department as part of the website project. The profiles allow others, such as potential collaborators, granting agencies, students and residents, to search for faculty members and retrieve their clinical and research interests, current projects and more. To learn more, please review the profile guidelines. To get started with your profile, contact Samantha Holmes, communication advisor, at samanthaholmes.pr@gmail.com.

16 Academic Promotions

Congratulations to the following department members who received academic promotion as of July 1, 2016.

To Professor:
Dr. Keerthi Peherat, Division of Digestive Care & Endoscopy
Dr. Tallal Younis, Division of Medical Oncology

To Associate Professor:
Dr. Chris Giar, Division of Cardiology
Dr. Marie Laryea, Division of Digestive Care & Endoscopy

See the 2016 Holiday Greeting Card (https://www.dal.ca/buyers-holiday-card.html)

Season’s Greetings from Dal

Dr. Kerri Purdy, Assistant Professor, joins us from the University of Ottawa's Dermatology Division, where she also held a private practice. Dr. Purdy is no stranger to Nova Scotia having previously worked with the Department of Medicine for three years (2011-2014) and completing both her MD and residency at Dalhousie University. She completed her fellowship in dermatology in 2011. Dr. Purdy re-joined the Department this past August.

Dr. Caroline Heughan, Assistant Professor, joined the Division of Clinical Dermatology and Cutaneous Science this past September. Dr. Heughan joins us from the University of Ottawa where she was a Division member and worked in private practice. She completed her medical degree here at Dalhousie University followed by her residency at the University of Ottawa. She completed her fellowship in dermatology in 2011.

We are pleased to welcome Dr. Osama Elkhateeb for a seven-month locum with the Cardiology Division. Dr. Elkhateeb previously held the position as the Director of Cardiac Center and Consultant Interventional Cardiologist at the King Abdullah Medical City in Holy Capital, Saudi Arabia. Dr. Elkhateeb completed his Fellowship at Dalhousie in 2009 and stayed in Nova Scotia working in the Department of Medicine until 2011.

Dr. Sharon Mulvagh, Professor, also joined the division of Cardiology in November as a part-time member (0.2FTE). Dr. Mulvagh was previously the Director of Women's Heart Clinic and member of Division of Cardiovascular Diseases, Mayo Clinic and the Associate Director of Preventive Cardiology in Minnesota. Dr. Mulvagh did her residencies at Dalhousie University, Boston University and the Baylor College of Medicine. She has her fellowship in both cardiology and internal medicine.

Dr. Suzanne Salaman, Assistant Professor, joined the Division of Physical Medicine & Rehabilitation in August. She completed her MD in 2010 and her PM&R residency from 2011-2016 at Dalhousie. Dr. Salaman was chief resident in 2012-13. She received her FRCP in June 2016.

Dr. Carol Holmes, communication advisor, at samanthaholmes.pr@gmail.com.

Dr. Kerri Purdy, Assistant Professor, joins us from the University of Ottawa's Dermatology Division, where she also held a private practice.
