

NEONATOLOGIST (0.5 FTE)

The Division of Neonatal-Perinatal Medicine, Department of Pediatrics, at Dalhousie University's Faculty of Medicine and the IWK Health Centre in Halifax, Nova Scotia is seeking a parttime (0.5 FTE) neonatologist to join a group of seven academic neonatologists.

The IWK Health Centre is an academic tertiary care pediatric and maternal care hospital. It is the main perinatal centre for Nova Scotia and serves as the pediatric referral centre (including the only pediatric surgical services) for the Maritime Provinces. The neonatologist will provide clinical care as part of an interdisciplinary team in the 40-bed combined Level II/III Neonatal Intensive Care Unit (NICU) at the IWK Health Centre. The NICU features a recently redeveloped state-of-the-art single family room care environment. The service is supported by Obstetrical and Maternal-Fetal Medicine services, a full spectrum of on-site pediatric medical and surgical subspecialties, excellent diagnostic imaging and laboratory resources, and the Reproductive Care Program of Nova Scotia, one of the best regional perinatal programs in North America. The Perinatal Follow-Up Program of Nova Scotia is closely affiliated with the Division and provides comprehensive detailed longer-term follow-up of selected infants.

This position offers an opportunity to pursue an academic career within a stable funding environment. A multidisciplinary research environment that includes the Nova Scotia Atlee Perinatal Database and the Perinatal Epidemiology Research Unit provides a rich source of population-based data for clinical audits and research projects. Opportunities for educational contributions, including Dalhousie University's Neonatal-Perinatal Medicine Residency Program, provide a stimulating clinical and academic environment.

Academic qualifications include a MD degree (or equivalent) from an accredited university with completed recognized specialty training and certification in Pediatrics and in Neonatal-Perinatal Medicine (or equivalent). Eligibility for medical licensure in the Province of Nova Scotia is essential. Preference will be given to candidates with evidence of prior productivity and potential for future academic contributions. Compensation and academic appointment is commensurate with experience and qualifications.

Halifax, the largest city in Atlantic Canada, offers an attractive maritime environment and an enviable lifestyle. Many desirable living areas are within walking distance or a few minutes' drive from Dalhousie University and the IWK Health Centre, with an opportunity to enjoy a wide variety of leisure time activities.

Interested applicants must submit a current CV and a statement outlining their academic, teaching and research interests. Applicants must also provide the names and contact information for three referees (two of which must be academic).

Applications will be accepted until August 30, 2024

To apply for this position, please go to <http://dal.peopleadmin.ca/>

Dalhousie University commits to achieving inclusive excellence through continually championing equity, diversity, inclusion, and accessibility. The university encourages applications from Indigenous persons (especially Mi'kmaq), persons of Black/African descent (especially African Nova Scotians), and members of other racialized groups, persons with disabilities, women, and persons identifying as members of 2SLGBTQ+ communities, and all candidates who would contribute to the diversity of our community.
