

Pediatric Residency Program Monthly Newsletter

THE RESIDENT'S ROLE IN CBD

- Understand EPAs, milestones and CBD stages
- Be engaged in own learning
- As a learner, bring EPAs to each new rotation and create a learning plan
- Actively seek out feedback and direct observation opportunities
- Support learning and be prepared to assess EPA's for junior trainees

FIRST CBD RESIDENTS

July 1, 2018 marks the date of the first residents to start the CBD program. This is a soft launch of CBD and there are bound to be changes and hiccups as we go along. As we launch CBD please do not hesitate to contact Dr. Sarah Manos, Program Director (sarah.manos@iwk.nshealth.ca), Alicia MacDonald, Program Coordinator (alicia.macdonald@iwk.nshealth.ca) or Dr. Beth Cummings, Competency Committee Chair (eacummin@dal.ca) if you have any questions, concerns or comments.

FACULTY EDUCATION WORKSHOPS

If you haven't signed up for a workshop yet and wish to do so (specifically if you are one of the faculty who will have a Transition to Discipline resident) please contact Alicia MacDonald (alicia.macdonald@iwk.nshealth.ca). There are only a few spaces left. Stay tuned for the announcement of more workshop dates.

Those who have signed up should have received an e-mail from Alicia, if you have not please contact her ASAP.
