Pharmacology

Strategic Plan 2024-2029

*Realizing Our Ambition: Defining a
New Era in Dalhousie Medicine*

Our Mission

To deliver excellence in biomedical research, education and training through the creation of a collaborative environment for our members that promotes interactions with clinical sciences to address health issues relevant to the

Our Vision

Excellence and innovation in pharmacology research, education and service.

What We Value

Respect. Inclusion.
Collaboration. Excellence.

Streams of Work and Focus Areas

EXCELLENCE IN EDUCATION

- Align the graduate program with the MPHEC (Maritime Provinces Higher Education Commission) guidelines regarding degree level standards.
- Increase our undergraduate profile and increase undergraduate course offerings.
- Recruit and retain highly qualified trainees.
- Enhance mentorship in education for faculty members.

HIGH-IMPACT RESEARCH

- Build relationships/partnerships with other departments, and provincial authorities.
- Use the departmental resources to best support academic and scholarly endeavors of all faculty, staff, and trainees.
- Value the unique individual and the collective contributions to the department and the university.

VALUING PEOPLE

- Support the professional development of all faculty, staff, and trainees.
- Facilitate mentorship for faculty and staff at all career levels.
- Promote recognition of all faculty, staff, and trainees.
- Foster engagement among faculty, staff, and trainees.

SERVING & ENGAGING SOCIETY

- Highlight the importance of pharmacology to healthcare research and delivery.
