

Congratulations to members of the Division of Neurosurgery for their scientific contributions to the Canadian Neurological Sciences Federation's annual meeting in Victoria, British Columbia.

Dr. Gwynedd Pickett was the senior investigator for the following projects, presented as posters:

- “Validation of the unruptured intracranial aneurysm treatment score against “real-world” MDT decisions”. Authors: **H Godbout, J Jarrett, GE Pickett**.
- “Presence of infiltrative glioblastoma cells in an isolated area of diffusion restriction”. Authors: B Clarke, MH Schmidt, **GE Pickett**.
- “Focal cortical dysplasia type IIIb associated with oligodendroglioma in a seizure free patient: a case report”. Authors: MA MacLean, AS Easton, **GE Pickett**.

Dr. David Clarke was the senior investigator for the following projects, presented as posters:

- “Efficacy of stereotactic intracavitary instillation of 90yttrium colloid for treatment of cystic sellar/parasellar tumors”. Authors: **David B. Clarke, Andrea L.O. Hebb, Ron Hill, Syed Ali Imran**, Aditya Mishra, George Mawko and Steven Burrell.
- “Simulation-based training for surgical instrument recognition”. Authors: **David B. Clarke, Murray Hong, Nelofar Kureshi, Lynne Fenerty, Ginette Thibault-Halman, Ryan C. D'Arcy**.
- “Early telephone follow-up for traumatic brain injury patients using the Rivermead Post-Concussion symptoms questionnaire”. Authors: **Ginette Thibault-Halman, Lynne Fenerty, Paula Taylor, Nelofar Kureshi, Simon Walling, David B. Clarke**.

Drs. David Clarke and Ali Imran were the senior investigators for the following platform presentation, which was presented by **Jae Ho Han**, RIM Student, Dalhousie Medicine Program (Class of 2018):

- “Delayed new-onset hormone dysfunction following complete and incomplete resection of nonfunctioning pituitary adenomas”. Authors: J Han, **ALO Hebb, SA Imran, DB Clarke**.
