Department of Urology

MISSION STATEMENT

The Department of Urology at Dalhousie University and within its various clinical practice sites including the Queen Elizabeth II Health Sciences Centre, the IWK Grace Health Centre, Dartmouth General Hospital, Cobequid Multi-Service Centre, Hants Community Hospital, Saint John Regional Hospital and St. Joseph's Hospital are committed to excellence in assisting patients to achieve their optimal level of well-being through dynamic and comprehensive programs and services, including clinical care; education of undergraduate and postgraduate students, other health professionals and the public; promotion of and participation in continuing medical education activities; and leadership in the advancement and dissemination of knowledge through research.

We strive to accomplish this mission by:

- maintaining a cadre of talented clinicians with special training and expertise that are able to provide to the citizens of the Maritime provinces the most up-to-date diagnostic and therapeutic modalities in the management of urological conditions (Tertiary Care Services)
- ensuring that all Dalhousie medical graduates have a strong grasp of basic and clinical knowledge and sufficient clinical experience to enable them to handle competently, common urological conditions at the primary care level regardless of their eventual field of study (Undergraduate Teaching)
- providing the necessary teaching and training to urology residents to produce competent specialists in the field of urology and to fulfill the requirements of the Royal College of Physicians and Surgeons of Canada (Postgraduate Teaching)
- organizing and promoting opportunities for educational events dealing with contemporary urological issues based on needs assessments (Continuing Medical Education)
- supporting clinical and basic research in the Department to provide a progressive and inquisitive atmosphere for students, to enable the proper evaluation of new diagnostic and therapeutic developments and to stimulate Departmental members who are leaders in the urological subspecialties (Research Environment)
- encouraging supportive interactions with a variety of other medical disciplines, nurses and allied health professionals (Multidisciplinary Environment)
- continuing active participation in national and international academic specialty and subspecialty organizations (External Collaborations)

Scheduled Activities for 2021 - 2022

AUA IN-SERVICE EXAMINATION (Mandatory Event)

CO-ORDINATOR: Dr. Andrea Lantz Powers

OBJECTIVE: To provide the residents and the Residency Program Committee feedback on their progress as compared to others with the same level of training throughout North America. To be used as a method of evaluation of resident progress and knowledge.

PLACE & TIME: Dalhousie Campus, Room (Dal) McCain 2022
8:00 a.m. – 12:00 p.m.

DATE: Saturday, November 18, 2023

FORMAT: Annually, a 4-hour multiple choice In-Service Examination is held under the supervision of the American Urological Association.

CANMEDS ROLES: Medical Expert, Scholar

CAREER DEVELOPMENT ANNUAL REVIEW GUIDELINES FOR UROLOGY RESIDENTS

Preamble

Given that the Department of Urology's goal is the attainment of high standards of excellence in clinical, research and teaching activity for its residents, it is essential that the Department nurtures postgraduate trainees in a continuous and positive manner. It can achieve this goal, in part, by ensuring that residents are afforded the benefit of annual Career Development Reviews. An annual Career Development Review is a valuable process that is most effective when collaborative in nature. It is designed to provide appropriate and timely feedback that can be incorporated into both formative (developmental) and summative (evaluative) performance assessments that occur during a resident's career. It provides an opportunity for residents to participate in their own career development and planning within the framework of Department performance standards and requirements of the Royal College. Defined criteria and informed discussions will facilitate decisions at various career points. This is consistent with and supportive of the notion that both the Department and residents are responsible for their ongoing maintenance and development of scholarly competence and effectiveness as urologists.

Career Development Reviews ensure that residents are made aware of their summative performance/progress on an annual basis and recognized for their achievements. It requires the Department Head, Program Director and Faculty to give feedback on performance and guidance to the resident to encourage their future positive growth and productivity.

Summative assessments are extremely important for both the Department and for resident, as they identify deficiencies and allow corrective formulation. Career Development Reviews in the later PG years includes information and direction to guide and prepare for subsequent career decisions including initiation of clinical practice or obtaining and facilitating fellowship and academic career formulation.

Guidelines of the Career Development Review

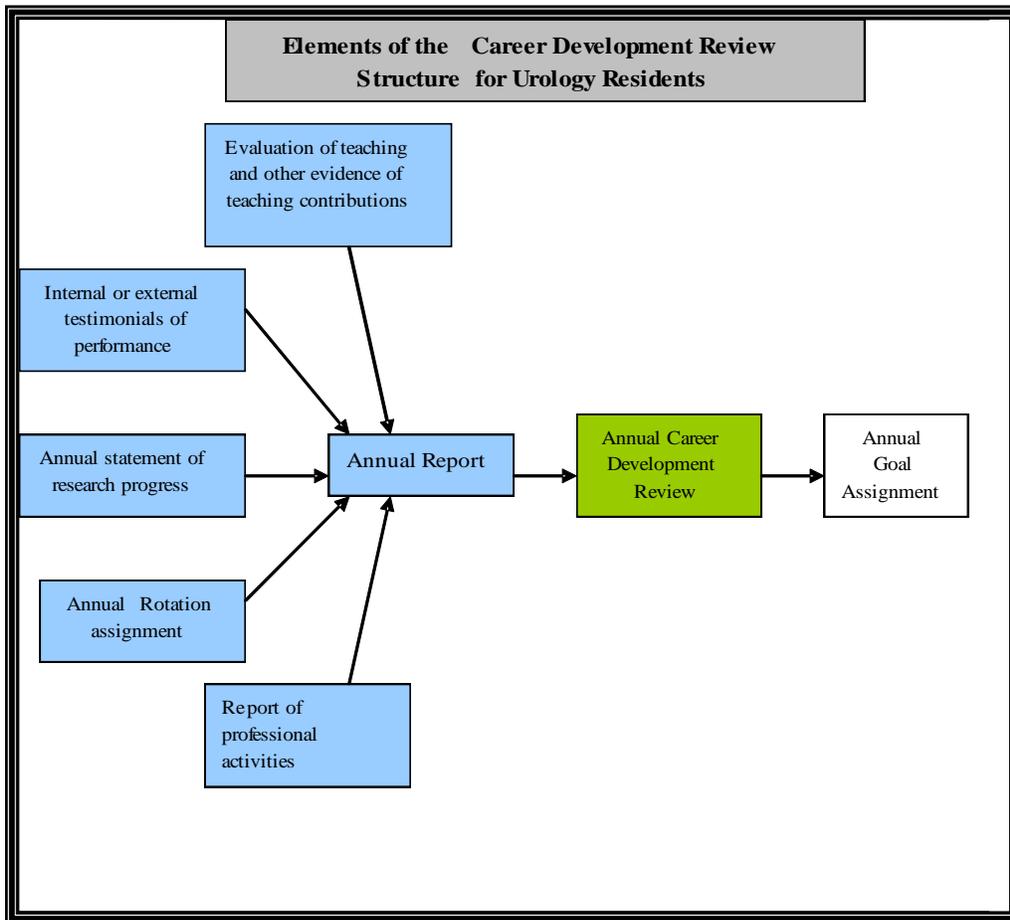

The Career Development Reviews must include the following aspects:

1. The Department Head is responsible for the conduct of Career Development Reviews.
2. Career Development Reviews will be conducted annually and will include a face-to-face meeting between the resident and the Department Head.
3. A written record of the annual Career Development Review will be given to the resident and will be kept on file.

Elements of the Career Development Review

The following items shall form the basic elements of the Career Development Review structure at Dalhousie University.

1. Resident's annual report and an updated CV.
2. Resident's statement of research activities.
3. Resident's report on professional activities within Dalhousie University.
4. Review of formal rotation evaluations.
5. Annual review of the resident's responsibilities and rotational needs reflective of the resident's career aspirations.
6. Identification of mentors within the Department.

EVENING WITH THE EXPERT

CO-ORDINATOR: Dr. Andrea Lantz Powers

OBJECTIVES:

1. To give residents the benefit of local expertise on various topics of urologic interest
2. To encourage and highlight the role of “collaborator” as described by CanMeds
3. To interact and collaborate with another physician or non-physician expert in a field of medicine or related specialty

CANMEDS ROLES: Medical Expert, Collaborator, Manager, Health Advocate

FREQUENCY: TBD

PLACE & TIME: TBA - 6:00 p.m.

FORMAT: All residents are expected to attend. The speakers have been chosen on the basis of their acknowledged expertise in specific areas of Urology. The format will consist of a didactic lecture by the Faculty, followed by a question and answer period (approximately one hour total). The event will then continue with a social evening.

DATE	SUBJECT	SPEAKER

GRAND ROUNDS

CO-ORDINATOR:

Dr Chris Bitcon
Dr Tarek Lawen (Chief Resident)
Dr Landan MacDonald

PREAMBLE:

Grand Rounds is a regularly held event which serves as a departmental wide educational activity, which is supported by the Royal College of Canada, CME category 1 activity. It is meant to provide a forum on which to present interesting cases for discussion, by both staff urologists and residents. It is organized by the Chief Resident, as one of their administrative and manager roles. The format varies, but it is expected that presenters will provide a concise synopsis of a clinical scenario, with supportive investigations and diagnostic imaging aids. This will sometimes follow with a brief review of the topic, in a PowerPoint format.

OBJECTIVES:

- I. To present and discuss in detail the broad spectrum of clinical urological problems
- II. To discuss clinical scenarios in a question/answer format, in order to provide the opportunity for residents to experience the Royal College O.S.C.E. process
- III. Presentation and discussion of departmental research activities

CANMEDS ROLES:

Medical Expert, Communicator, Scholar, Manager, Health, Advocate

FREQUENCY & TIME:

TUESDAYS - 5:00 p.m.

PLACE:

**Bethune Building
Room B44**

FORMAT:

The **Chief Resident at the Victoria General Site** will chair these sessions and will be responsible for case selection, which will include cases from all urological subspecialties. Residents/medical students will present cases and discussion will follow. Residents will be expected to state the clinical problems, analyze all pertinent laboratory and imaging tests and formulate treatment alternatives.

When appropriate, a critical review of the current literature will be performed and presented in a concise manner.

Some sessions will include a clinical presentation by an assigned **staff urologist**. Each staff will do one presentation per year. Questions will be directed in a Royal College format to the senior residents in preparation for their final year exam.

When research rounds are held during this time slot, all research projects conducted in the Department will be presented and discussed for scientific merit and in order to gain critical feedback. Resident research projects will be evaluated periodically to ensure adequate progress.

GU CST ROUNDS

CO-ORDINATORS: **Dr. Ricardo Rendon**
 Dr. Lori Wood
 Dr. Derek Wilke

OBJECTIVE: I. To present and discuss in detail the broad spectrum of clinical urologic-oncology problems in a multidisciplinary setting including urologic oncologists, medical oncologists, radiation oncologists, pharmacists and nurses

 II. To discuss clinical scenarios in a question/answer format, in order to provide the opportunity for residents to experience the Royal College OSCE process

CANMEDS ROLES: Medical expert, scholar, leader, collaborator

FREQUENCY: **1st and 3rd MONDAYS**

PLACE & TIME: **Room 728, 7th Floor, MacKenzie Building - 4:00 - 5:00 p.m.**

FORMAT: Complex clinical urologic oncology cases will be presented by staff clinicians or urology residents. Residents will be expected to state the clinical problems, analyze all pertinent laboratory and imaging tests and formulate treatment alternatives.

JOURNAL CLUB

CO-ORDINATOR: Dr Ross Mason

OBJECTIVES:

- I. To practice and become adept in the critical analysis of urological literature
- II. To review a subject or author by the selection of original journal articles
- III. To interact with an expert in the field of Community Health and Epidemiology, while critically analyzing the literature

CANMEDS ROLES: Medical Expert, Communicator, Collaborator, Health Advocate

FREQUENCY: FIRST MONDAY OF EACH MONTH (*with some exceptions*)

PLACE & TIME: Urology Board Room - 5:30 – 7:00 p.m.

FORMAT: Articles are selected by the coordinators and distributed electronically prior to the meeting. Participants are expected to have reviewed all of the articles prior to Journal Club and be prepared for discussion.

The articles will be critically reviewed by an **expert epidemiologist** when possible, with in depth discussion at the time of the journal club.

I. Was the study design appropriate to answer the questions posed by the authors?

II. Were the authors conclusions warranted, based on the results?

III. What is the place of this paper in the literature?

Journal Club 2023 – 2024

Date	Topic	Preceptors
September 18	Oncology – Observational Studies	Rendon/Mason
October 16	Pediatrics – Systemic Reviews/meta-analysis	MacLellan/Keefe
November 6	General Urology / Transplant – Systemic Reviews/meta-analysis	McGregor/Paterson
December 4	Female/Functional/Reconstruction – Diagnostic Testing	Bailly/Cox
January 8	Men’s Health/Infertility – Observational Studies	Ory
February 5	Oncology – RCT’s	Rendon/Mason/Kokorovic
March 4	Pediatrics – Observational Studies	MacLellan/Keefe/Milford
April 8	General Urology / Transplant – Systematic Reviews/meta-analysis	McGregor/Paterson
May 13	Men’s Health/Infertility – Diagnostic Tests	Ory
June 3	Female/Functional/Reconstruction – RCT’s	Bailly/Cox

PATHOLOGY GRAND ROUNDS

CO-ORDINATORS: **Dr Jennifer Merrimen**
 Dr Cheng Wang
 Dr Sandra Kim
 Dr Stewart Whalen

OBJECTIVES:

1. To present interesting cases to allow for discussion of urological pathology with the availability of gross and histological tissue presentations.
1. To provide a forum of which to question the residents on their understanding and ability to interpret uropathology.
2. To collaborate with Uro-pathologists, with the goal of providing up to date pathology review of cases.

FREQUENCY: **TWO TIMES YEARLY**

DECEMBER 12, 2023
APRIL 23, 2024

PLACE & TIME: **Room 728a, 7th Floor, D.J. MacKenzie Building 5:00 - 6:00 p.m.**

FORMAT: The Chief Resident, in association with Dr. Merrimen, will select appropriate cases and assign responsibility for clinical presentation to the resident.

PGME ACADEMIC E-MODULES & IN-CLASS SESSIONS

CO-ORDINATOR: PGME Office

OBJECTIVES: A faculty wide resident learning series provided by e-modules and a few in-class sessions to address current educational needs.

PRACTICE EXAMS

CO-ORDINATOR: Dr. Jesse Ory

OBJECTIVES:

1. To afford residents an opportunity to develop their skills in the exam format of the final Royal College exam.
2. To allow Faculty to evaluate the progress of residents in this examination format.

FREQUENCY: FOUR TIMES YEARLY

PLACE : 5 Victoria

DATE & TIME:

September 13, 2023 – 7:30 a.m. Back to School MCQ	October 17, 2023 – 4:30 to 7pm OSCE
January 10, 2024 - 7:30 a.m. AHD – MCQ	June 4, 2024 – 1:00 p.m. AHD – MCQ

* MCQ = Multiple Choice Questions

* SAQ = Short Answer Questions

* OSCE = Objective Structured Clinical Exam

PROGRAM DIRECTOR'S MEETINGS

CO-ORDINATOR: Dr Andrea Lantz Powers

OBJECTIVE: To allow an opportunity for the Program Director to meet with the residents as a group and discuss their training program, recommendations for improvements, interaction with Dalhousie, etc. Meetings with individual residents will be scheduled separately on a biannual basis and at any other time as necessary.

FREQUENCY: FIVE TIMES YEARLY

PLACE & TIME: Room 302, 5 Victoria – 4:00 pm
Urology Boardroom

Wednesday, September 27, 4:00pm
Wednesday, November 22, 4:00pm
Wednesday, January 17, 4:00pm
Wednesday, April 17, 4:00pm
Wednesday, June 19, 4:00pm

QUALITY ASSURANCE ROUNDS

CO-ORDINATORS: Dr Chris Bitcon
Dr Tarek Lawen
Dr Landan MacDonald

- OBJECTIVES:**
- I. To review the patterns and practices of clinical activity within the Department in order to identify means to improve the quality of care.
 - II. To allow free discussion and review of mortalities and significant morbidities within all teaching hospitals in the Department in Halifax.
 - III. To develop specific learning points from the cases presented.

FREQUENCY: EVERY TWO MONTHS

PLACE & TIME: Bethune Building, Room B44 – Tuesdays, 5:00 – 6:00 pm

FORMAT: Organization of these sessions is the responsibility of the Chief Resident based at the Victoria General Hospital. The resident at each institution will prepare a list of all patients requiring discussion and co-ordinate the presentation with the **Chief Resident**. Emphasis should be placed on interesting cases which have a specific teaching/learning/controversial issue.

Tuesday, September 12
Tuesday, November 14
Tuesday, January 9
Tuesday, March 26
Tuesday, June 18

RESEARCH DAY

CO-ORDINATOR: Dr. Ross Mason, Chair Resident Research Committee

OBJECTIVES:

- I. To allow opportunities for residents to update their current research projects and receive constructive criticism.
- II. To provide opportunities to practice preparation and presentation of scientific data.

DATE: April 10, 2024

PLACE & TIME: Weather Watch Room, 5 Dickson
8:00 a.m. - 3:00 p.m.

FORMAT: Presentation of active research projects is a mandatory event for all PGY2-5 residents, and optional for PGY1 residents. Each resident will present ongoing or completed research projects in the same fashion that they would at a national meeting. This will include an 8 minute PowerPoint presentation for the abstract, followed by 2 minutes for discussion.

The Research Day will be attended by a Visiting Professor, who will provide two presentations to the Department. In addition, the guest speaker will meet with the residents for a halfday to discuss interesting cases. Mock oral exams will be given to the PGY5 residents.

AWARDS:

1. **Dr. Said Awad Resident Research Award** - presented for the best presentation and this paper will be submitted to the annual Faculty of Medicine Research Day competition.

2. **Doctors NS Research Award** – presented to the runner up research project.

STATE OF THE ART LECTURES

CO-ORDINATOR: Dr. Andrea Lantz Powers

- OBJECTIVES:**
- I. To provide the opportunity for residents to study and critically analyze the literature related to a specific topic.
 - II. To obtain experience in extracting and organizing the most pertinent subject information for presentation with the assistance of a preceptor.
 - III. To develop skills in producing an audiovisual presentation and mastering effective communication techniques.

TIME: WEDNESDAYS (7:30 a.m.)

PLACE: Victoria Building, Room 6-287

FORMAT: The Program Director, will select appropriate topics that are both timely and unlikely to be covered elsewhere. **Each PGY2-5 resident will have one presentation annually.**

Residents should seek advice from assigned preceptor in planning the talk.

CANMEDS Roles: Scholar, Medical Expert, Communicator

State of the Art Lectures 2023 – 2024
Wednesdays – 0730 - 0830

	Topic	Resident	Supervisor
Oct 25 th	Role of Autotransplant in Modern day Urology	Jesse Spooner	Tom McGregor
Nov 8 th	Use of Ablative Therapies for Small Renal Masses	Charlie Gillis	Ricardo Rendon
Nov 22 nd	Prophylactic antibiotics in Urology	Emily Chedrawe	Andrea Lantz Powers
Nov 29 th	Testosterone Replacement Therapy	Kieran Moore	Jesse Ory
Jan 17 th	Antibiotic Prophylaxis in Pediatric Urology	Chris Bitcon	Dawn MacLellan
Feb 14 th	Management of Biochemical Recurrence in Prostate Cancer	Tarek Lawen	Ross Mason
Feb 21 st	Focal Therapy for Prostate Cancer	Landan MacDonald	Andrea Kokorovic
March 20 th	Trauma – Informed Care in Urology	Budoor Salman	Ashley Cox
May 15 th	Artificial Intelligence in Urology	Wyatt MacNevin	Dan Keefe
*May 28 th (Tues 1700)	Robotic Surgery – Beyond the Prostate	Becky Power	Nick Paterson

SURGICAL FOUNDATIONS PROGRAM

CO-ORDINATOR: Dr. David Tang, Department of Surgery

OBJECTIVES:

- I. To review the important topics concerning basic science and medicine issues important to the practice of surgery.
- II. To prepare the PGY1 and PGY2 residents for their Foundations of Surgery exam.

FREQUENCY: WEDNESDAYS, Starting September 1st

PLACE AND TIME: Surgical Skills Centre (Bethune Building B004) - 9:00 - 12:00 noon
Full schedule to come from Department of Surgery

FORMAT: Weekly seminars and lectures are presented by Faculty from a variety of specialties.

SURGICAL SKILLS

CO-ORDINATOR: Dr. Dan Keefe & Dr Tom McGregor

PREAMBLE: Urologic surgical procedures are increasingly performed in a minimally invasive fashion. Laparoscopic surgery is rapidly becoming the preferred surgical modality for treating a variety of urologic conditions and has become the standard of care for some others. New developments in laparoscopic instruments and techniques have made the performance of these procedures easier, safer and faster. More than ever, surgical skills development is at the centre of residency training.

As many laparoscopic surgical procedures are past the pioneers' learning curve, knowledge transfer has become more systematic. Like any other surgical tasks, basic scientific knowledge and repetition of learned skills is fundamental to proficient surgical training. At our department we are fortunate to have access to two different surgical skills labs for residents and staff to master and maintain skills, both for minimally invasive, endoscopic and open surgical procedures.

These sessions are mandatory and the R1's and R2's are to make arrangements to attend when they are off-service if they are in the province.

FREQUENCY: 7 times yearly
Wednesdays, Noon to 3 pm

LOCATIONS: Atlantic Health Sciences Skills Centre, Bethune Building, Room B004
Dalhousie Medical School Anatomy Lab

CONTACT: Allison Lerette (Lab: 902-473-1963)
Afterhours access: Security in Dickson Building

FORMAT: Afternoon half day in Surgical Skills Lab. The sessions typically will include didactic presentations on anatomy, physiology and surgical procedures, in addition to hands-on laparoscopic training on simulated models and cadavers. A surgical skills examination will conclude the year's sessions.

EVALUATION: An evaluation form will be circulated at the end of each session to evaluate the content and practice opportunities. Constructive feedback is important and will be used to plan upcoming sessions.

UROLOGY SCHOOL

CO-ORDINATOR: Dr Andrea Lantz Powers

FREQUENCY: WEDNESDAYS

PLACE & TIME: Urology Boardroom, Room 302, 5 Victoria - 1:00 to 4:30 pm

The concept of Urology School is premised on the idea that urology residents can learn a specific topic(s) under the guidance of an “expert” in a particular area urology, medicine, or related disciplines. The residents will play a major role in the delivery of the topic, but under the direction of a curriculum leader. The curriculum leader will be asked to define the topic(s) to be presented, the format of delivery, and the expectations of the participants. A set of clearly defined goals and objectives will be circulated to the participants in advance of the date of the Urology School.

GOALS AND OBJECTIVES:

1. To review current key topics in Urology, under the guidance of a faculty urologist, or other educator.
2. To understand the pathophysiology of urologic conditions and disease process.
3. To systematically review recent and pertinent literature related to a topic.
4. To develop an approach to the workup and management of a urologic condition.
5. To use evidence-based medicine to support clinical practice.

CANMEDS ROLES:

Most of the CanMeds competencies will be taught and assessed during the urology school session. Examples of how this might be achieved include the following:

1. Medical Expert – review and delivery of topic
2. Communicator – effective delivery of topic with group discussion
3. Collaborator – staff and resident integration of information presented
4. Leader – the resident will learn how to effectively plan and deliver an educational program.
5. Scholar – Evidence based medicine and review. The resident will learn skills in teaching others, including peers, staff, and medical students.
6. Professional – certain topics will reflect medico-legal and ethical issues.
7. Health Advocate – discussing how the urologist can impact health promotion and disease prevention.

FORMAT:

Urology school is intended to provide residents, faculty urologists and other medical educators an opportunity to integrate all aspects of the CanMeds competencies into academic and clinical practice. This will be achieved by using evidence-based medicine to explore relevant topics in urology. It is expected that the assigned staff urologist will prepare an outline for his/her assigned Urology School Session and distribute them well in advance (**at least two weeks**) to the residents for adequate preparation. This activity will be lead by the urologist, but resident participation in the delivery of content is expected under the direction of the faculty.

The staff urologist is asked to provide an outline of the assigned Urology topic, with key textbook references and pertinent articles to be reviewed in advance of the date. The staff is expected to provide some sort of didactic presentation on the topic, unless more appropriately delivered in another format. Other appropriate components of Urology School include, but are not limited to:

- Journal article review (1-2 key articles)
- Case presentations
- Role playing
- Hands on surgical skills (including use of the surgical skills lab, urology lab)
- Video review
- Exam or Quiz

EVALUATION:

Each resident will be asked to complete an evaluation form at the completion of the session. The information will be collated by Paula Snow, and submitted to the RTC and the presenting staff member.

Urology School 2023 - 2024

Date	Preceptor	Topic
Sept 6	Dr Bell	Diagnosis Prostate Cancer
Sept 13	Dr Bailly	UDS and Nocturia
Sept 28	Dr Lantz Powers	Medical Management of Stones
Oct 4	Dr Gavin Langille	Infertility
Oct 11	Dr Dawn McLellan	Cryptorchidism and external genital pathology
Oct 25	Drs Morgan MacDonald & Josh White	OSCE Cases
Nov 1	Research	AUA Abstract Prep
Nov 8	Andrea Titterness	Presentation Skills
Nov 22	Dr Jennifer Merrimen & Dr Cheng Wang	Uro pathology
Nov 29	PGME	CanMeds – Difficult Conversations
Nov 30		
Dec 6	Nick Paterson	Trauma of the Upper Urinary Tract
Dec 13	Research	CUA Abstract Prep
Jan 3	Dr Jon Duplisea	Non-muscle invasive Bladder Cancer
Jan 10	Dr Ricardo Rendon	Testicular Cancer
Jan 24	Dr Lori Wood	Management of Metastatic Prostate Cancer
Jan 30	Dr Ashley Cox	Urinary Diverticula and Fistula
Feb 7	Dr Gabriella Ilie	Research Methodology / Intro to Stats
Feb 14	Dr Hannah Dahn	Radiation Oncology
Feb 28	Dr Jill Hudson	Bladder Outlet Obstruction and Community Urology

June 5	Dr Andrea Kokorovic	
June 12	Research	CUA Prep
June 19	Dr Andrea Lantz Powers	Resident Wellness

Other Meeting Dates

Residency Program Committee (RPC)

The Residency Program Committee meets at least every second month. The RPC discusses issues concerning the program and the Program Director reports resident concerns to the RPC. Elected resident representatives sit on the committee along with the resident chief.

Dates
Sept 20, 7:30 am
Nov 15, 7:30 am
Jan 31, 7:30 am
April 24, 7:30 am
June 12, 7:30 am

Competence Committee for CBD

The Competence Committee meets to review the individual files of each CBD resident regarding their training progress. This committee meets quarterly and reviews the individual EPA's and the reports generated by them. Recommendations on training are then sent to the RPC.

Dates
October 18, 7:00 am
January 10, 7:00 am
Feb 28, 7:00 am
April 17, 7:00 am
May 29, 7:00 am
