

Below is a list of faculty who recently indicated that they are available as potential supervisors for honours students for the 2022-23 year.

Beyond this list, students can also approach any faculty member based in PSYO/NESC, as well as faculty who are cross-appointed or adjunct, and/or faculty from separate departments (e.g., Health/Medicine, Kinesiology, Computer Science, etc.), as long as the project is relevant to Psychology and/or Neuroscience.

Before approaching any faculty, please review their research interests to see if they align with your own or the skills that you would like to learn. When you do reach out, include a copy of your most recent transcript - this may be helpful for supervisors to ensure you will qualify for the program and have any necessary courses/background specific to their field of research.
