

Dalhousie University
School of Biomedical Engineering
Programme Exit Survey

Upon your completion of or withdrawal from your graduate program in the School of Biomedical Engineering, we are hoping to learn more about your experience in the School, and hope to keep in touch as you move forward in your career. Your participation in this survey is optional.

However, the associated Exit Check list when you leave the labs of the school is a necessary and obligatory part. Usually these forms are filled out together, but for some of you doing additional work following graduation, the exit checklist is done later.

Full Name: _____

Phone Number (Optional): _____

Continuing Email Address (not @dal.ca): _____

Exit Questions

1. Course Work

Overall, I found that the coursework associated with my graduate studies to significantly supplement my learning and education in biomedical engineering.

- ☐ strongly agree
- ☐ moderately agree
- ☐ moderately disagree
- ☐ strongly disagree
- ☐ not applicable

Comments:

2. Thesis Research

Overall, I found my thesis research to be interesting and prepared me for future independent research.

- ☐ strongly agree
- ☐ moderately agree
- ☐ moderately disagree
- ☐ strongly disagree
- ☐ not applicable

Comments:

3. Supervision

Overall, I had a very positive supervision experience.

- ☐ strongly agree
- ☐ moderately agree
- ☐ moderately disagree
- ☐ strongly disagree

☐ not applicable

Comments:

4. Department Environment

Overall, my experience within and the support provided by the School of Biomedical Engineering during my graduate degree was positive. I would recommend the School of Biomedical Engineering to other students.

- ☐ strongly agree
- ☐ moderately agree
- ☐ moderately disagree
- ☐ strongly disagree
- ☐ not applicable

Comments:

5. Dalhousie

Overall, I am happy that I chose Dalhousie to pursue graduate studies. I would recommend Dalhousie to other students.

- ☐ strongly agree
- ☐ moderately agree
- ☐ moderately disagree
- ☐ strongly disagree
- ☐ not applicable
