

## Integrated Science – First-year Registration Worksheet for 2026-2027

Registration begins May 30th, 2026, at 12 pm ADT. Before you can register for your courses in the Integrated Science Program, you will need “DISP” designated as your “major” for your first year at Dalhousie. The DISP office will arrange this after you fill out and submit the **Course Choice Form for Integrated Science** and pay your Dalhousie confirmation deposit. Note that your subject major (e.g., Biology, Chemistry) for a full BSc degree is typically declared in March 2027, when you select your second-year courses.

On May 30th follow the steps below to register. If you have questions or problems, please contact the DISP office by email [disp@dal.ca](mailto:disp@dal.ca) or phone the Director, Gabrielle Tompkins at 902-494-8496.

1. **Login** to [Dal Online](#) using your NetID and password.
2. **Select Register for Classes**
3. **Select FALL TERM. Click Continue.**
4. **Click the Blocks tab** to begin Block Registration.
5. **Select ONE of the three Options below for DISP. Click submit changes** to add all fall term courses.  
**OPTION 1A FALL** or **OPTION 1B FALL** (MATH 1215 in Winter)  
**OPTION 2 FALL** (MATH 1000 in Fall, MATH 1010 in Winter)

1A and 1B Fall Options differ in CHEM 1011 lecture section and in PHIL 1050 tutorial section.

A includes CHEM 1011 lectures M W F 0835-0925 and PHIL 1050 tutorial T 1435-1525

B includes CHEM 1011 lectures M W F 0935-1025 and PHIL 1050 tutorial T 1535-1625

2 includes CHEM 1011 lectures M W F 0835-0925 MATH 1000 lectures M W F 0935-1025 and PHIL tutorials 1435-1525.

Note that if students are planning to take physics, they will need to remove either CHEM 1011 or MATH 1000 to remain within 21 credit hours. See physics registration notes on page 4.

6. **Select Winter term. Click Continue**

7. **Under the Blocks tab select ONE of four Options below. Click submit changes** to add winter courses.  
**OPTION 1A WINTER** or **OPTION 1B WINTER** (MATH 1215 in Winter)  
**OPTION 2 WINTER** (MATH 1000 in Fall, MATH 1010 in Winter)

- Option 1A and Option 1B Winter blocks differ in Math 1215 lecture and tutorial time slots.

A includes MATH 1215 lectures M W F 1135-1225 and MATH 1215 tutorial W 1635-1725

B includes MATH 1215 lectures M W F 1135-1325 and MATH 1215 tutorial F 0835-0925

**All Integrated Science students register in STAT 1501, BIOL 1501, PSYO 1501, SCIE 1551, PHIL 1050 and CHEM 1011 in the fall term, and EARTH 1501, BIOL 1502, PSYO 1502, SCIE 1552 and CHEM 1012 in the winter term.**

Course selection among Integrated Science students may differ in the selection of MATH courses. **OPTIONS 1 and 2 details are on pages 2-3 of this document.**

8. **Congratulations, you have block registered for your Integrated Science classes!**

## **Modifying your Block Registration**

Some students will want to or need to change some of their courses. To ADD an elective course or DROP a block-registered course, select the appropriate term and then the course CRN (Course Registration Number). Each section of each course, including the lecture, lab, or tutorial sections, has a unique CRN. Note that students will only have room for an elective if they are using IB or AP credits rather than taking Chemistry, Math or Physics.

- You may not change your registration in STAT 1501, BIOL 1501, PSYO 1501, SCIE 1551, PHIL 1050, EARTH 1501, BIOL 1502, PSYO 1502 or SCIE 1552.
- If you wish to use your approved IB/AP credits in lieu of first year Chemistry or Math, you may drop the corresponding first-year Dal course. If you are unsure whether you want to use IB/AP credits from high school, you may wish to discuss this with Dr. Tompkins.
- If dropping a course reduces your total credit hours to less than 30 for the year, you should add elective courses until you have 30 credit hours in total for the year, which is a normal full load.

## **Integrated Science registration options**

*Note that a typical full course load is 30 credit hours (15 credit hours per term). Students in DISP take 18 credit hours per term. Students registering in Math 1000 + Math 1010 (option 2) will have an additional course overload in fall term. Students registered for fewer than 15 credits per term (i.e., students using AP or IB credits in lieu of Math or Chemistry) may wish to add a 3-credit hour elective course to keep a full course load each term.*

Note: M = Monday, T=Tuesday, W = Wednesday, R=Thursday, F = Friday

01, 02, 03= Lecture sections

B01, B07, B08, B21, B22 = Lab sections

T01, T02 = Tutorial sections (SCIE 1552 T01 is dedicated research project time)

**DISP students will receive a notification of a time conflict for BIOL 1501 lab B01 and PSYO 1501 lab B01 (fall) and BIOL 1502 lab B01 and PSYO 1502 lab B01 (winter) because the labs are booked in multiple rooms at the same time. Please ignore this conflict notification.**

- You will be billed for tuition based on the number of credit hours you are taking. Tuition includes an auxiliary fee (~\$105/term) to cover the costs of the Integrated Science field trips as well as science labs. Contact [Student Accounts](#) if you have questions about student fees.

## Physics registration

DISP students are approved to register in 21 credit hours per term. If a student wishes to take Physics, this must be included within 21 credit hours. Students wishing to take Physics should carefully review course selection documents and consult with Dr. Gabrielle Tompkins ([disp@dal.ca](mailto:disp@dal.ca)). Apart from Physics majors we advise students to take Physics in second year instead. This allows students to have a more manageable workload in first year. Students must indicate their intention to register in Physics by submitting their completed Course Choice Form.

After block registering for Option 1 or 2, students can register for Physics by manually adding the CRNs for the lecture and lab components of either **Physics in and around you** (PHYC 1310 Fall, PHYC 1320 Winter) or **Introduction to Physics** (PHYC 1190 Fall, PHYC 1290 Winter)

### Physics in and around you

Lecture: PHYC 1310 Fall CRN 12545 Section 01 Mon Wed Fri 1235-1325

Lab: PHYC 1310 Fall CRN 12546 Section B01 Mon 1435-1725

Lecture: PHYC 1320 Winter CRN 22489 Section 01 Mon Wed Fri 1235-1325

Lab: PHYC 1320 Winter CRN 22490 Section B01 Mon 1435-1725

*Students enrolling in PHYC 1310 in Fall term will receive a notification of a conflict with SCIE 1551 section 01 as there is timetable overlap Wednesdays 1:05-1:25pm. The SCIE 1551 time slot 1:05-1:25pm will only be used for optional help sessions. Please ignore this registration conflict.*

### Introduction to Physics

PHYC 1190 Fall CRN 12521 Section 01 Mon Wed Fri 0835-0925

PHYC 1190 Fall CRN 12527 Section B01 M 1435-1725

PHYC 1290 Winter CRN 22465 Section 01 Mon Wed Fri 0835-0925

PHYC 1290 Winter CRN 22471 Section B01 Mon 1435-1725

*Due to a schedule issue, students enrolling in PHYC 1190 will need to manually change their Chem 1011 lecture section to 0935-1025 if they registered in Option 2 and plan to take Chem 1011. To manually change registration for fall term, remove Chem 1011 lecture and tutorial CRNs 10403 and 10429. Then add CRNs 10406 and 10429 for lecture and lab.*

*To remain within 21 credit hours per term, students taking physics will need to choose between taking Math and Chemistry and may need to manually remove a class to ensure they remain within 21 credit hours per term.*

Students should only remove a class if they have IB or AP credits that they plan to use instead, or if, after consulting with Dr. Tompkins, they intend to take Chemistry or Math in summer or second year.

*If you have any questions about modifying your course selections, please contact us at [disp@dal.ca](mailto:disp@dal.ca).*
