

Faculty of Science Course Syllabus (Section A) (revised June 2020)
Department of Biology
BIOL 4065 Sustainability and Complexity
Fall 2020

Instructor(s): Patricia Lane e-mail: patricia.lane@dal.ca

TA Emily Wells e-mail: eepwells@gmail.com

Office hours by appointment on Microsoft Teams

Lectures: *asynchronous, lecture and slides posted on Brightspace*

Tutorials: *asynchronous, tutorial videos, and discussion groups on Brightspace*

Course Description

Sustainability is a transdisciplinary area integrating equitable societies, protected environments, and robust economies. Achieving sustainability is a challenge that to date has had limited success in our complex world. Complexity studies offer new approaches for achieving sustainability beyond the traditional ones that have been mostly focused upon reducing unsustainability and using the machine model as a worldview.

Course Prerequisites

BIOL 2060.03 (or BIOA 3001.03) or ERTH 2410.03 or GEOG 2100X/Y.06 or GEOG 2201.03 or GEOG 2202.03 or INTD 2001.03 or INTD 2002.03 or OCEA 2001.03/2002.03 (or OCEA 2000X/Y.06) or SUST 2000.06 or SUST 2001.06

RESTRICTIONS: E1, E2, E3 Restricted to students in: Faculty of Science, College of Sustainability and International Development students in FASS

Learning Objectives/Outcomes

Be able to:

1. Interpret Sustainable Development (SD) as a trans-disciplinary concept requiring complex systems thinking.
2. Contrast some of the major controversies in SD especially over what is to be sustained.
3. Understand complexity as an emerging worldview and its potential applications for human development.
4. Contrast North and South SD approaches – how can complexity help bridge the gap?
5. Explain how reducing unsustainability is not the same as achieving sustainability.
6. Undertake critical thinking about sustainability and flourishing.
7. Make use of a variety of sustainability tools, methodologies, and models.
8. Design and deliver a creative, insightful video presentation that integrates sustainable development and complexity for a developing country.
9. Construct and analyze systems models featuring SD and complexity.
10. Map SD systems using Plectica.
11. Interpret global sustainability indices for your study country.
12. Understand wicked problems in SD from a systems point of view.

Course Materials and Communications

- Required textbook(s):
 - (1) The Right Way to Flourish by John Ehrenfeld available at the main bookstore (Student Union Building) for approximately \$58.41
 - (2) Systems Thinking Made Simple: New Hope for Solving Wicked Problems by Derek and Laura Cabrera. Available on Amazon.ca as paperback for \$39.27 or electronically downloaded to a Kindle or a Kindle apt for your computer. Currently (Aug 12) the download is free, but it is unclear how long this will be true.
- Course Brightspace page with Panopto lectures and Collaborate Ultra.
- e-journal articles from Dalhousie Library
- Any online platforms outside Brightspace: Microsoft Teams – Office 365 & Zoom
- Email-class messages, reminders, and announcements will be sent to all students via Brightspace but a student should email Dr. Lane (patricia.lane@dal.ca)
- to ask a question directly, set up a virtual meeting, etc.
- A student should email the Teaching Assistant, Emily Wells, directly to ask a question about tutorial or any associated issues like lateness in submitting a tutorial.

Course Assessment

Component	Weight	Date Due
Module Assignments 1-9	9 @ 8 pts each = 63	Sept 13, 20, 27, Oct 4, 11, 128, 25, Nov 1, 15
Video Presentation	12	November 19
Term Paper	25	December 3
Total	100 pts.	

Other course requirements:

1. There are no synchronous components and no ungraded components.
2. 9 Module Assignments and the term paper will be submitted typed online for Urkund checking
by 11:59 pm on date due. Points will be deducted for lateness.

Conversion of numerical grades to Final Letter Grades follows the Dalhousie Common Grade Scale

A+ (90-100)	B+ (77-79)	C+ (65-69)	D	(50-54)
A (85-89)	B (73-76)	C (60-64)	F	(<50)
A- (80-84)	B- (70-72)	C- (55-59)		

Course Policies (See also university policies and websites on last pages of this syllabus.)

Grading and Marking

You will not receive a letter grade lower than what is indicated for your final point value listed above, although the professor reserves the right to give you a higher grade. Because the scale is generous for A's

and B's (30 points) as compared to C's and D's (20 points), individual marks will only be rounded up if the student has more than 0.50 above the maximum value for a particular letter grade. For example, if you received 79.51 points, you would receive an A- in the class and not a B+. If you received 79.49 points, you would receive a B+ and not an A-. The final grade that you receive in a class is the total of the work that you did and the knowledge that you gained.

A grade is something that you earn. If you require a final grade at a particular level for an honours degree, job, graduate or professional school, or other purpose, you should ensure that you put the time and effort in during the term to earn that grade. The Professor is willing to give you extra help and study assignments if you believe that you are not achieving a satisfactory level of proficiency in the class. Please do not come at the end of the term requesting a higher grade because you need it to fulfil a requirement, enter graduate school, you worked hard, or because you paid your tuition. These are not satisfactory reasons. It is unfair to the other students in the class who have done the work, and to the university, which needs to maintain fair and high standards of academic achievement. Although assignments will have a detailed point distribution for marking, the Teaching Assistant has discretionary power to deduct additional points (up to 10%) for overall sloppy writing, poor grammar and spelling, messy format, inadequate referencing, and overall inferior quality of the assignment. All assignments are to be typed and spell & grammar-checked before submission.

Absences and Missed Work

Use the Student Declaration of Absence form for missed academic requirements in this course if you are ill for more than 3 consecutive days (not 3 class days) as per university policy. A submission site for your declaration is given on the class website on Brightspace. Two submissions are permitted per term. The possibility of making up late work is at the discretion of the professor. "Students experiencing recurring long-term absences are strongly encouraged to meet with a Faculty or Declared Major Advisor, or Faculty Program Coordinator and refer to the University's Student Accommodation Policy." We do not have the possibility of offering alternative assignments or changes in weighting of points per requirement.

Individual Work and Plagiarism

All work in this class is to be done individually. The 9 Module Assignments should be typed, and spell/grammar checked before being submitted to Urkund for originality evaluation. Your term paper also will be checked for originality by Urkund. All instances of suspected plagiarism will be reported promptly to the Academic Integrity Officer of the Faculty of Science.

Late Assignments and Extensions

Any material submitted for evaluation after the designated deadline will have marks deducted at the rate of 10% per day late including weekends. Extensions without the mark penalty will be given only with a valid Student Declaration of Absence or other excuse as approved by the professor. If you file a Student Declaration for a short-term absence from class, you need to follow-up with Dr. Lane on how the missing work will be treated and/or follow-up with your Teaching Assistant for late module assignments (10).

BIOL. 4065 Sustainability and Complexity 2020 Class Schedule

Module Assignments are due at 11:59pm Atlantic Standard Time (AST) on first Sunday following last day (Saturday) of end of the week as listed below. Video and term paper due dates are listed below.

WEEK	MODULE/ASSIGNMENT	ASSIGNMENTS
1. Sept 8-12	Module 1-Introduction to Sustainability, Complexity, Systems Thinking, Wicked Problems, and Flourishing Assignment 1-Your Twin and his/her Country	Module 1 Reading 1
2. Sept 13-19	Module 2-The World Is Complex and Unsustainable with Global Situation-Connected but Fragmented Assignment 2-Country Statistics & Human Development Index	Module 2 Reading 2 Module 1 Due Sept 13
3. Sept 20-26	Module 3-Complexity Theory and Paradigm Shift Changing an Approach That Is Not Working Assignment 3-The Ecological Footprint	Module 3 Reading 3 Module 2 Due Sept 20
4. Sept 27- Oct 3	Module 4-Systems Thinking in Sustainability & Complexity in Environmental Systems-Are Resilient Ecosystems Possible? Assignment 4-Case Study-SWOT	Module 4 Reading 4 Module 3 Due Sept 27
5. Oct 4-10	Module 5-How Can Societies Be Sustainable with Social and Environmental Justice? Assignment 5-Comparing Development & SD Indicators	Module 5 Reading 5 Module 4 Due Oct 4
6. Oct 11-17	Module 6-Sustainability/Complexity in Human Development- Cuban Case Study Assignment 6- UN SD Goals/SD Index/Sustainability Toolbox	Module 6 Reading 6 Module 5 Due Oct 11
7. Oct 18-24	Module 7-Sustainability/Complexity in the Economy-Is a Steady State Green Economy Possible? Assignment 7-Green Economy	Module 7 Reading 7 Module 6 Due Oct 18
8. Oct 25-31	Module 8-Globalization-Why does its Present Form Produce So Many Wicked Problems? Assignment 8-Identification of Wicked Problems and Rationale	Module 8 Reading 8 Module 7 Due Oct 25
9. Nov 1-7	Module 9 Wicked Problems Everywhere: Marine Biodiversity Loss Assignment 9-Conservation Exercise/EBM Tool	Module 9 Reading 9 Module 8 Due Nov 1 Term Paper Assigned
STUDY WEEK-Nov 8-14 -NO NEW MODULE		
10. Nov 15-21	Module 10 Flourishing or Sustainability or Avoiding Extinction? Assignment 10-Chose one and defend it	Complete and Post Videos November 17 by 11:59pm Module 9 Due Nov 15
11. Nov 22-28	Critique and Vote on Individual Videos	Work on Term Paper
12. Nov 29- Dec 3	Conclusions and Feedback	Term Paper Due December 5 by 11:59pm

Faculty of Science Course Syllabus (Section B) (revised June-2020)

Fall 2020

BIOL/ENVS 4001 Environmental Impact Assessment

Course Syllabus, Section A.

University Policies and Statements

This course is governed by the academic rules and regulations set forth in the University Calendar and by Senate

Missed or Late Academic Requirements due to Student Absence

As per Senate decision instructors may not require medical notes of students who must miss an academic requirement, **including the final exam**, for courses offered during fall or winter 2020-21 (until April 30, 2021).

Information on regular policy, including the use of the Student Declaration of Absence can be found here:

https://www.dal.ca/dept/university_secretariat/policies/academic/missed-or-late-academic-requirements-due-to-student-absence.html.

Academic Integrity

At Dalhousie University, we are guided in all of our work by the values of academic integrity: honesty, trust, fairness, responsibility and respect (The Center for Academic Integrity, Duke University, 1999). As a student, you are required to demonstrate these values in all of the work you do. The University provides policies and procedures that every member of the university community is required to follow to ensure academic integrity.

Information: https://www.dal.ca/dept/university_secretariat/academic-integrity.html

Accessibility

The Advising and Access Services Centre is Dalhousie's centre of expertise for student accessibility and accommodation. The advising team works with students who request accommodation as a result of a disability, religious obligation, or any barrier related to any other characteristic protected under Human Rights legislation (Canada and Nova Scotia).

Information: https://www.dal.ca/campus_life/academic-support/accessibility.html

Student Code of Conduct

Everyone at Dalhousie is expected to treat others with dignity and respect. The Code of Student Conduct allows Dalhousie to take disciplinary action if students don't follow this community expectation. When appropriate, violations of the code can be resolved in a reasonable and informal manner—perhaps through a restorative justice process. If an informal resolution can't be reached, or would be inappropriate, procedures exist for formal dispute resolution.

Code: https://www.dal.ca/dept/university_secretariat/policies/student-life/code-of-student-conduct.html

Diversity and Inclusion – Culture of Respect

Every person at Dalhousie has a right to be respected and safe. We believe inclusiveness is fundamental to education. We stand for equality. Dalhousie is strengthened in our diversity. We are a respectful and inclusive community. We are committed to being a place where everyone feels welcome and supported, which is why our Strategic Direction prioritizes fostering a culture of diversity and inclusiveness

Statement: <http://www.dal.ca/cultureofrespect.html>

Recognition of Mi'kmaq Territory

Dalhousie University would like to acknowledge that the University is on Traditional Mi'kmaq Territory. The Elders in Residence program provides students with access to First Nations elders for guidance, counsel and support. Visit or e-mail the Indigenous Student Centre (1321 Edward St) (elders@dal.ca).
