Faculty of Science Course Syllabus  
Department of Biology  
BIOL 3042/MARI 3042  
Molecular Ecology  
Fall 2016

Instructor(s): Daniel Ruzzante  daniel.ruzzante@dal.ca  LSC 4045  
Paul Bentzen  paul.bentzen@dal.ca  LSC 6052

Lectures:  10:05-11:25 Tue/Thu  Location LSC-COMMON AREA C334

Laboratories:  0

Tutorials:  0

Submit course syllabus to your Depart office for posting on the Dept website prior to the start of term  
Submit requests for final exam exemptions to the Dean’s office at least 2 weeks prior to the start of term

Course Description  
We survey techniques of molecular genetic analysis and consider how they can be used to identify species, populations, sexes, individuals and family relationships, and study population attributes such as historical dispersal, contemporary connectivity, mating behaviour and effective population size. Evaluation is based on assignments, a test and a final exam.

Course Prerequisites  
A grade of B- or better in each of BIOL 2030.03 (or GENE 2000.03), BIOL 2040.03, and BIOL 2060.03.

Course Objectives/Learning Outcomes  
Understand main concepts in population genetics (Hardy-Weinberg Equilibrium, genetic drift, effective population size, inbreeding depression)  
Familiarity with molecular markers and methods used in population genetics, molecular ecology, phylogeography, landscape genomics.  
Familiarity with applications of molecular ecology, such as wildlife forensics, conservation biology and invasive species.

Course Materials  
- No required text

Assignments

1. Microsatellite primer design – 5%  due Sept. 29
2. Basic population genetics – 5%   due Oct. 13
3. Effective population size – 10%  due Nov. 3
4. Model-based clustering – 10%    due Nov. 22
5. DNA sequence analysis – 10%     due Dec. 1

Other course requirements
N/A

Conversion of numerical grades to Final Letter Grades follows the Dalhousie Common Grade Scale

A+ (90-100)  B+ (77-79)  C+ (65-69)  D (50-54)
A  (85-89)    B (73-76)   C (60-64)   F (<50)
A- (80-84)   B- (70-72)  C- (55-59)

Course Policies

Late assignments are penalized at a rate of 10% per day.
Missed exams will require a doctor’s note.

Course Description

We survey techniques of molecular genetic analysis and consider how they can be used to identify species, populations, sexes, individuals and family relationships, and study population attributes such as historical dispersal, contemporary connectivity, mating behaviour and effective population size. Evaluation is based on assignments, a test and a final exam.

Course Content

- What is Molecular Ecology, reasons for studying genetic variation
- Genetic markers: allozymes; begin lab methods - PCR
- Neutral Evolution: HWE, drift, effective pop size
- Lab methods: quantitative & reverse transcription PCR, DNA sequencing
- Genetic markers: microsatellites
- Population subdivision, F-statistics & gene flow
- Population subdivision: Model based clustering
Inbreeding, inbreeding depression, purging
Inbreeding, population fragmentation, demography
Local Adaptation Qst/Fst
genetic markers: mtDNA, phylogenetic analysis
Barcoding and study of biodiversity
Phylogeography: bridge between phylogenetics and population genetics
Landscape genetics, case studies
Forensics and management
Case studies
Next Generation DNA sequencing, metagenomics
The evolution of molecular ecology methods: from allozymes to SNPs & RAD
Invasive species
Conservation Breeding and restoration

Prerequisites

A grade of B- or better in each of BIOL 2030.03 (or GENE 2000.03), BIOL 2040.03, and BIOL 2060.03.

ACCOMMODATION POLICY FOR STUDENTS

Students may request accommodation as a result of barriers related to disability, religious obligation, or any characteristic protected under Canadian Human Rights legislation. The full text of Dalhousie’s Student Accommodation Policy can be accessed here: http://www.dal.ca/dept/university_secretariat/policies/academic/student-accommodation-policy-wef-sep--1--2014.html

Students who require accommodation for classroom participation or the writing of tests and exams should make their request to the Advising and Access Services Centre (AASC) prior to or at the outset of the regular academic year. More information and the Request for Accommodation form are available at www.dal.ca/access.

ACADEMIC INTEGRITY

Academic integrity, with its embodied values, is seen as a foundation of Dalhousie University. It is the responsibility of all students to be familiar with behaviours and practices associated with academic integrity. Instructors are required to forward any suspected cases of plagiarism or other forms of academic cheating to the Academic Integrity Officer for their Faculty.

The Academic Integrity website (http://academicintegrity.dal.ca) provides students and faculty with information on plagiarism and other forms of academic dishonesty, and has resources to help students succeed honestly. The full text of Dalhousie’s Policy on Intellectual Honesty and Faculty Discipline Procedures is available here: http://www.dal.ca/dept/university_secretariat/academic-integrity/academic-policies.html
STUDENT CODE OF CONDUCT

Dalhousie University has a student code of conduct, and it is expected that students will adhere to the code during their participation in lectures and other activities associated with this course. In general:

“The University treats students as adults free to organize their own personal lives, behaviour and associations subject only to the law, and to University regulations that are necessary to protect

• the integrity and proper functioning of the academic and non–academic programs and activities of the University or its faculties, schools or departments;
• the peaceful and safe enjoyment of University facilities by other members of the University and the public;
• the freedom of members of the University to participate reasonably in the programs of the University and in activities on the University's premises;
• the property of the University or its members.”

The full text of the code can be found here:
SERVICES AVAILABLE TO STUDENTS

The following campus services are available to help students develop skills in library research, scientific writing, and effective study habits. The services are available to all Dalhousie students and, unless noted otherwise, are free.
