

# Environmental Analytics Syllabus

## Department of Earth and Environmental Sciences

### ENVS 3100 Winter 2025

*Dalhousie University acknowledges that we are in Mi'kma'ki, the ancestral and unceded territory of the Mi'kmaq People and pays respect to the Indigenous knowledges held by the Mi'kmaq People, and to the wisdom of their Elders past and present. The Mi'kmaq People signed Peace and Friendship Treaties with the Crown, and section 35 of the Constitution Act, 1982 recognizes and affirms Aboriginal and Treaty rights. We are all Treaty people.*

*Dalhousie University also acknowledges the histories, contributions, and legacies of African Nova Scotians, who have been here for over 400 years.*

#### Course Instructor

Name	Email	Office Hours
Dr. Caroline Franklin (she/her)	Caroline.Franklin@dal.ca	By appointment in LSC 3084 Please email to schedule

#### Course Description

This course takes a hands-on approach to data analysis to support environmental conservation. Topics include experimental design, spatial pattern analysis, visualization of 3D data, ecological modelling, and animated mapping of time series data. Emphasis is placed on learning skills directly applicable to conducting environmental research in a variety of settings.

##### *Course Prerequisites*

ENVS 2100, STAT 2080

#### Course Structure

##### *Course Delivery*

In person

##### *Lectures*

Friday at 8:35 - 9:55 in McCain Arts & Social Sciences Building 2019

##### *Laboratories*

Friday at 10:05 - 11:25 in McCain Arts & Social Sciences Building 2019

## Course Materials

There is no textbook for this course. Students are required to check Brightspace regularly for readings, announcements, resources, and other information.

## Assessment

Component	Weight	Date
Group exercises	40%	Ongoing (during labs)
Concept checks (3 at 5% each)	15%	In class
Presentation	15%	April 4 (in class)
Participation	5%	Ongoing
Final exam	25%	During final exam period

1. Group exercises: Students complete small tasks related to weekly topics in pairs or small groups to build proficiency in applied skills (e.g., data analysis, data visualization) during class. The purpose is to repeat tasks until they become familiar. The exercises are discussed as a group but submitted and graded individually.
2. Concept checks: Short questions based on broader concepts that assess understanding of the class topics dispersed throughout the term (4-5 total). They are written online during class and should take approximately 10 - 15 minutes to complete.
3. Presentation: Students deliver oral presentations near the end of the term.
4. Participation: Based on engagement in online exercises, attendance, and contributions to teamwork. Attendance is a requirement and expectation for success in this course.
5. Final exam: Cumulative and involves applied skills.

Conversion of numerical grades to final letter grades follows the Dalhousie Grade Scale

A+ (90-100)	B+ (77-79)	C+ (65-69)	D (50-54)
A (85-89)	B (73-76)	C (60-64)	F (0-49)
A- (80-84)	B- (70-72)	C- (55-59)	

## Course Policies on Missed or Late Academic Requirements

**Missed class:** Students who miss class a class are responsible for catching up on missed materials.

**Missed work:** Students are encouraged to submit an email to the instructor prior to missing a deadline. Late submissions will receive a late penalty of 20% per day (including weekends), up to a maximum of five days, after which a grade of zero will be assigned.

## Course Policies related to Academic Integrity

For group assessments, students are expected to collaborate with their teammates and learn from each other. Students are expected to complete individual assignments independently.

Plagiarism and cheating are serious academic offenses and include the submission or presentation of the work of another as if it were one's own. Failure to acknowledge someone else's words, phrases, ideas, recording, images, code, results, lecture content, term paper, or assignment responses may result in a failing grade or, if very serious, suspension or expulsion from the university.

## Learning Objectives

- strengthen understanding of the conceptual foundations of environmental statistics and major issues and pitfalls associated with study design and the use of computer models
- learn to recognize and apply appropriate analytical techniques to different types of environmental data
- interpret results of analytical methods and apply science-based conclusions
- gain experience using various visualization methods for depicting complex environmental data

## Course Content

Week	Date	Topic	Assessment
1	January 10	Welcome to ENVS 3100!	
2	January 17	Data skills: summarizing and finding trends	
3	January 24	Data skills: building spreadsheet proficiency	
4	January 31	Data mining: correlation	Concept check 1
-	February 7	No classes (Munro Day - University Closed)	
5	February 14	Data mining: regression	
-	February 21	No classes (Winter Break)	
6	February 28	Data visualization: graph interpretation	
7	March 7	Data visualization: building better graphs	Concept check 2
8	March 14	Geospatial problem solving	
9	March 21	Geospatial problem solving	
10	March 28	Science communication and dissemination	Concept check 3
11	April 4	Presentations	
12	April 7	Course review	

This schedule is tentative and may change depending on class interests and time available

## University Policies and Statements

### Recognition of Mi'kmaq Territory

Dalhousie University would like to acknowledge that the University is on Traditional Mi'kmaq Territory. The Elders in Residence program provides students with access to First Nations elders for guidance, counsel, and support. Visit or e-mail the Indigenous Student Centre at 1321 Edward St or [elders@dal.ca](mailto:elders@dal.ca). Additional information regarding the Indigenous Student Centre can be found at: [https://www.dal.ca/campus\\_life/communities/indigenous.html](https://www.dal.ca/campus_life/communities/indigenous.html)

### Internationalization

At Dalhousie, 'thinking and acting globally' enhances the quality and impact of education, supporting learning that is "interdisciplinary, cross-cultural, global in reach, and orientated toward solving problems that extend across national borders." Additional internationalization information can be found at: <https://www.dal.ca/about-dal/internationalization.html>

### Academic Integrity

At Dalhousie University, we are guided in all our work by the values of academic integrity: honesty, trust, fairness, responsibility, and respect. As a student, you are required to demonstrate these values in all the work you do. The University provides policies and procedures that every member of the university community is required to follow to ensure academic integrity. Additional academic integrity information can be found at: [https://www.dal.ca/dept/university\\_secretariat/academic-integrity.html](https://www.dal.ca/dept/university_secretariat/academic-integrity.html)

### Accessibility

The Student Accessibility Centre is Dalhousie's centre of expertise for matters related to student accessibility and accommodation. If there are aspects of the design, instruction, and/or experiences within this course (online or in-person) that result in barriers to your inclusion, please contact the Student Accessibility Centre ([https://www.dal.ca/campus\\_life/academic-support/accessibility.html](https://www.dal.ca/campus_life/academic-support/accessibility.html)) for all courses offered by Dalhousie with the exception of Truro. For courses offered by the Faculty of Agriculture, please contact the Student Success Centre in Truro (<https://www.dal.ca/about-dal/agricultural-campus/student-success-centre.html>)

## **Conduct in the Classroom – Culture of Respect**

Substantial and constructive dialogue on challenging issues is an important part of academic inquiry and exchange. It requires willingness to listen and tolerance of opposing points of view. Consideration of individual differences and alternative viewpoints is required of all class members, towards each other, towards instructors, and towards guest speakers. While expressions of differing perspectives are welcome and encouraged, the words and language used should remain within acceptable bounds of civility and respect.

## **Diversity and Inclusion – Culture of Respect**

Every person at Dalhousie has a right to be respected and safe. We believe inclusiveness is fundamental to education. We stand for equality. Dalhousie is strengthened in our diversity. We are a respectful and inclusive community. We are committed to being a place where everyone feels welcome and supported, which is why our Strategic Direction prioritizes fostering a culture of diversity and inclusiveness (Strategic Priority 5.2). Additional diversity and inclusion information can be found at: <http://www.dal.ca/cultureofrespect.html>

## **Student Code of Conduct**

Everyone at Dalhousie is expected to treat others with dignity and respect. The Code of Student Conduct allows Dalhousie to take disciplinary action if students don't follow this community expectation. When appropriate, violations of the code can be resolved in a reasonable and informal manner - perhaps through a restorative justice process. If an informal resolution can't be reached, or would be inappropriate, procedures exist for formal dispute resolution. The full Code of Student Conduct can be found at: [https://www.dal.ca/dept/university\\_secretariat/policies/student-life/code-of-student-conduct.html](https://www.dal.ca/dept/university_secretariat/policies/student-life/code-of-student-conduct.html)

## **Fair Dealing Policy**

The Dalhousie University Fair Dealing Policy provides guidance for the limited use of copyright protected material without the risk of infringement and without having to seek the permission of copyright owners. It is intended to provide a balance between the rights of creators and the rights of users at Dalhousie. Additional information regarding the Fair Dealing Policy can be found at: [https://www.dal.ca/dept/university\\_secretariat/policies/academic/fair-dealing-policy.html](https://www.dal.ca/dept/university_secretariat/policies/academic/fair-dealing-policy.html)

## **Originality Checking Software**

The course instructor may use Dalhousie's approved originality checking software and Google to check the originality of any work submitted for credit, in accordance with the Student Submission of Assignments and Use of Originality Checking Software Policy. Students are free, without penalty of grade, to choose an alternative method of attesting to the authenticity of their work and must inform the instructor no later than the last day to add/drop classes of their intent to choose an alternate method. Additional information regarding Originality Checking Software can be found at:

[https://www.dal.ca/dept/university\\_secretariat/policies/academic/student-submission-of-assignments-and-use-of-originality-checking-software-policy-.html](https://www.dal.ca/dept/university_secretariat/policies/academic/student-submission-of-assignments-and-use-of-originality-checking-software-policy-.html)

## **Student Use of Course Materials**

Course materials are designed for use as part of this course at Dalhousie University and are the property of the instructor unless otherwise stated. Third party copyrighted materials (such as books, journal articles, music, videos, etc.) have either been licensed for use in this course or fall under an exception or limitation in Canadian Copyright law. Copying this course material for distribution (e.g. uploading to a commercial third-party website) may lead to a violation of Copyright law.
