Note: Under old rules, the BA and BSc Honours requirements were identical. Under the new rules, BSc. first subject is the same as under old rules but the BA degrees are distinct from the BSc for both Concentrated and Combined Honours. Also, under both the BA and BSc, if ECON is the secondary subject, the new rules require fewer mathematics and economic-math courses than the old rules. Old rules can be assessed via the Calendar page link above. Click on “**PDF Versions**” at top right of page.
