Course Description

The course studies how the organization of centrally administered markets affects their performance. The students learn several mechanisms that are currently used and evaluate their properties. The course has a strong emphasis on applications, e.g., the allocation of students to public schools, interns to hospitals or organ donors to recipients.

Course Prerequisites

ECON 3700 or Math 2001 or by instructor's permission.

Maturity in mathematics is expected. This course has a minimum grade requirement of C for their prerequisite courses.

Course Objectives/Learning Outcomes

The students should be able to

- Identify the desirable properties (e.g., stability, efficiency, and strategy proofness) that the allocation mechanisms in a given market should satisfy
- Evaluate the importance of incentive issues in various markets
- Apply and use the mechanisms such as deferred acceptance, top trading cycles, serial dictatorship, and probabilistic serial dictatorship in appropriate settings
- Analyze and assess whether a given mechanism in a given market satisfies one or more desirable properties

Course Assessment

Component	Weight (% of final grade)
<i>Midterm</i>	30%
<i>Final exam</i>	50%
<i>Assignments</i>	20%

Conversion of numerical grades to Final Letter Grades follows the Dalhousie Common Grade Scale

A+ (90-100)	B+ (77-79)	C+ (65-69)	D (50-54)
A (85-89)	B (73-76)	C (60-64)	F (<50)
A- (80-84)	B- (70-72)	C- (55-59)	

There will be four homework problem sets, and each of these is worth 5% of your grade. Assignments must be done individually and handed in before or on the due date.

Course Policies

Policy on Missed Materials: Assignments will NOT be accepted after the due date, unless there is a valid reason for the delay. If a student miss midterm for a valid medical reason, all the weight of your midterm will be shifted to the final. If you miss the final exam for a valid reason, you must notify the instructor immediately and make arrangements to write a comprehensive exam as soon as health permits.

Conduct in the Classroom – Culture of Respect

Substantial and constructive dialogue on challenging issues is an important part of academic inquiry and exchange. It requires willingness to listen and tolerance of opposing points of view. Consideration of individual differences and alternative viewpoints is required of all class members, towards each other, towards instructors, and towards guest speakers. While expressions of differing perspectives are welcome and encouraged, the words and language used should remain within acceptable bounds of civility and respect.

Every person at Dalhousie has a right to be respected and safe. We believe inclusiveness is fundamental to education. We stand for equality. Dalhousie is strengthened in our diversity. We are a respectful and inclusive community. Everyone at Dalhousie is expected to treat others with dignity and respect. The Code of Student Conduct allows Dalhousie to take disciplinary action if students don't follow this community expectation. If an informal resolution can't be reached, or would be inappropriate, procedures exist for formal dispute resolution.
